Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

FashionNetwork France is an established French-language B2B news and recruitment portal for the fashion, luxury, beauty, retail, and employment sectors, presenting industry journalism, events, videos, job listings, newsletters, advertising services, and premium subscriptions.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent professional-media purpose, with substantial editorial and recruitment content, recognized industry employers, newsletter and cookie-preference forms, and no login, payment, wallet, phishing, or impersonation indicators. External reputation checks were clean, and the site has an established public footprint consistent with its stated business model.

EVIDENCE

- The homepage identifies the service as professional fashion, luxury, and beauty information and displays editorial and recruitment content.
- The homepage contains no sensitive form, hidden form, wallet interaction, or external password destination.
- Reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site operates as a media and recruitment portal rather than presenting a regulated financial service. Its stated commercial model comprises advertising, premium subscriptions, recruitment listings, sponsorship, and newsletter engagement; no regulated financial license is claimed. This is proportionate to the apparent business model, although the legal and commercial identity should be confirmed before entering a material advertising, recruitment, or subscription agreement. Registration privacy is an administrative detail and does not create an identity contradiction.

EVIDENCE

- The homepage provides editorial, subscription, recruitment, advertising, newsletter, and cookie-policy functions.
- The domain was registered in 2000 and is approximately 26.28 years old; registrar: OVH, SAS.
- Historical coverage records 52 archive snapshots spanning 2001–2008, with 8 years tracked.
- TLS is issued by WE1 at DV validation level and is valid through 2026-10-04.

What to Verify Next

For a commercial engagement, confirm the contracting entity and applicable consumer or advertising terms in the site's legal pages, and independently confirm any relevant business registration or sector-specific obligations with the appropriate registry. Subscription and recruitment counterparties should also validate invoicing and contact details through an independently sourced corporate channel.

EVIDENCE

- The homepage exposes legal, contact, subscription, cookie, and recruitment-related functions.
- The site's business model is explicitly centered on media, employment, advertising, sponsorship, and subscriptions.
- No sensitive credential form or untrusted form destination was observed during interaction testing.

Summary Verdict

The site presents as a legitimate, established, and trustworthy professional-media platform. Converging evidence from its mature domain history, strong public usage footprint, clean reputation, coherent content, and valid transport security supports normal interaction, including account login and standard use.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic served through edge infrastructure rather than a directly exposed origin. This provides a meaningful mitigation against routine infrastructure abuse, while remaining a protective control rather than proof of legitimacy. The hosting provider is Cloudflare, Inc., US, through AS13335.

Closing Assessment

Normal browsing, account access, subscriptions, and ordinary site interactions are appropriate; higher-value commercial engagements should follow the organization's standard counterparty and contractual due-diligence process.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status

UNVERIFIED

Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fashionnetwork.com.

- The request resolved to fr.fashionnetwork.com, a subdomain of fashionnetwork.com. NOTED
- Registration is published under OVH, SAS. CLEAR
- DNS for this domain is served by anycast.me, across 2 name servers. NOTED
- The registration is paid up to 2027-04-26. NOTED
- The earliest public archive of this site is from 2001-04-04. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fashionnetwork.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
