

Is fastercapital.com legit? TrustSniffer's high-trust assessment: 90/100

fastercapital.com

Verdict

90

OUT OF 100

HIGH TRUST

fastercapital.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 75%.

What this site appears to be

FasterCapital presents itself as a global venture builder and online incubator offering startup cofounding, technical development, growth support, fundraising, financing, and business services. The page highlights a large international network, portfolio companies, testimonials, investment activity, and claimed fundraising success.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

FasterCapital is a global venture builder and online incubator presenting startup cofounding, technical development, growth support, fundraising, financing, and business advisory services, including co-funding or direct investment in startups in exchange for equity.

Scam/Impersonation Risk

No contradictions were observed across the supplied identity, reputation, behavioral, and page-level evidence. The site presents a consistent corporate venture-building identity, with no phishing, impersonation, blacklist, malicious-content, or suspicious-form indicators. Its established web presence and clean external reputation support the conclusion that normal interaction is appropriate.

- The homepage identifies the business as “The global venture builder and online incubator” and presents extensive corporate service content.
- The domain was registered in 2014 and is approximately 12.41 years old.
- The site has 403 archive snapshots spanning 2001–2026, covering 26 tracked years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist hit.

Regulatory Verification Notes

FasterCapital describes services including capital raising, venture capital and angel funding, project financing, technical cofounding, startup growth, intellectual-property services, and startup support programs. It also advertises securing up to \$10B for major projects and states that it may co-fund or directly invest for equity. These are high-stakes commercial claims whose supporting evidence is not independently demonstrated in the supplied page material, so licensing, corporate authority, funding capacity, and contractual terms remain appropriate verification matters. No third-party broker match was identified, and the registration record names IONOS SE; privacy protection is an administrative registration detail rather than an identity contradiction.

- The homepage lists “Raise Capital,” “Mega Financing,” venture capital, angel capital, grants, crowdfunding, and project-financing services.
- The homepage states that major projects may secure up to \$10B and describes co-funding or direct investment in exchange for equity.
- The domain registration record identifies IONOS SE as registrar and records an expiration date of 2027-03-10.
- TLS uses issuer WE1 with DV validation and is valid to 2026-09-05.

What to Verify Next

Before entering a material engagement, counterparties should confirm the relevant legal entity, investment terms, fee structure, and any licensing or registration requirements with the applicable jurisdictional registry. Funding and portfolio claims should be corroborated through independently obtained documentation and references, while contact channels should be confirmed through an independent official route.

- The homepage supplies broad claims about portfolio companies, testimonials, investment activity, and fundraising success.
- The legal and corporate information presented on the supplied pages does not establish a verified regulatory authorization.
- The site's service pages distinguish fundraising, financing, advisory, and equity-related offerings, which may carry different regulatory obligations.

Summary Verdict

FasterCapital presents as a legitimate, established, and trustworthy corporate venture-building platform with a strong supporting convergence of identity, longevity, reputation, content, and technical signals. The remaining uncertainty concerns validation of commercial and regulatory claims, not evidence of scam or impersonation.

Infrastructure Integrity

The website is served through Cloudflare's CDN/WAF infrastructure, with observed addresses limited to Cloudflare edge servers and no origin candidate identified. This provides a meaningful protective layer against direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

- Hosted on AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- Four observed edge IPs were associated with AS13335; likely origin IP count was 0.
- TLS certificate issuer: WE1; validation level: DV; valid to 2026-09-05.

Closing Assessment

Normal website use, including account login and standard business interaction, is appropriate; material financial commitments should follow the targeted licensing, entity, funding, and contractual checks above.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fastercapital.com.

- The request stayed on fastercapital.com. It was not redirected to another domain. CLEAR
- Registration is published under IONOS SE. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-10. NOTED
- The earliest public archive of this site is from 2001-12-27. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fastercapital.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
