Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

The website is an established Indian ecommerce storefront operated as Fetch N Buy, presenting groceries, snacks, household supplies, personal-care goods, stationery, and other consumer products for direct retail purchase through account, cart, payment, delivery, and returns functions.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, or other scam-related conflicts were observed. The site's multi-year provenance, sustained archival continuity, established traffic presence, clean external reputation, and benign interactive behavior converge strongly with its stated retail purpose. Observed forms did not conceal sensitive inputs or transmit data to untrusted destinations, and testing found no cloaking, suspicious scripts, wallet-draining behavior, or clipboard interference.

- Domain-registration records identify Fetch N Buy as the registrant through GoDaddy.com, LLC: registered 2020-10-22 (~5.78 years old), with expiration recorded as 2028-10-22.
- Historical records contain 83 archive snapshots spanning 2021-02-10 to 2026-01-08 (6 years tracked), with no suspicious repurposing or semantic drift identified.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no phishing finding, no confirmed adverse listing, and placement within the global top one million at rank 199,972.
- Behavioral examination of the storefront completed two successful runs with no external requests or posts, hidden forms, suspicious inline scripts, cloaking, or credential forwarding.

Regulatory Verification Notes

The homepage provides a coherent commercial identity through the Fetch N Buy name, GSTIN 06DKMPS4592G3ZI, two Gurugram business addresses, and Indian telephone support. These disclosures are consistent with an ordinary goods retailer rather than a financial, investment, or brokerage service; accordingly, the absence of a financial-services licence claim is not anomalous. The available material does not establish independent validation of the stated tax registration, but this is a routine counterparty-validation matter rather than evidence of deception. Secure transport is correctly deployed for account and transaction use.

- The homepage identifies GSTIN 06DKMPS4592G3ZI and publishes premises in Sector 54 and Sector 56, Gurugram, Haryana.
- The homepage presents shipping and delivery, return and refund, payment, store-location, account, and shopping-cart functions consistent with the stated retail operation.

- The site's transport encryption uses a YE1-issued domain-validated TLS certificate, valid to 2026-09-07.
- The third-party broker-intelligence dataset produced no broker match, consistent with the site not presenting itself as a brokerage business.

What to Verify Next

For institutional onboarding, procurement teams should validate the stated GST registration against the relevant official registry, reconcile the two premises with contracting and invoicing records, and confirm the official customer-service channels through an independently obtained business record. A controlled initial purchase can additionally confirm fulfilment, refund handling, and payment-descriptor consistency before material purchasing volume is approved.

- The homepage supplies both a tax identifier and physical premises that provide concrete attributes for registry and counterparty checks.
- The storefront publishes customer-policy categories covering delivery, returns, refunds, and payments, providing defined areas for pre-purchase review.
- The homepage offers telephone assistance with stated weekday support hours, providing a channel for controlled operational validation.

Summary Verdict

The website is legitimate, established, and trustworthy, with strong convergence among its commercial identity, historical continuity, external reputation, page content, and observed behavior. No contradictory risk signals were found, and normal interaction—including account login and standard purchases—is appropriate.

Infrastructure Integrity

The site is served through Cloudflare's CDN/WAF, which reduces direct exposure of the underlying server and provides mainstream edge protection; this is a mitigating security control rather than independent proof of legitimacy.

- The hosting infrastructure is served from AS13335 (CLOUDFLARENET — Cloudflare, Inc., US) through the observed edge address 23.227.38.32.
- All observed addressing belonged to the protective edge layer, with no separate origin candidate identified during the assessment.

Closing Assessment

Prospective customers may use the site normally, while organizations conducting formal vendor onboarding should complete their standard counterparty and controlled-purchase checks before approving significant procurement volume.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100

Identity verification confidence

50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fetchnbuy.in.

- The request stayed on fetchnbuy.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2028-10-22. CLEAR
- The earliest public archive of this site is from 2021-02-10. CLEAR
- It is hosted on CLOUDFLARENET, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fetchnbuy.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
