

Is fgb.mx a scam? TrustSniffer's high-risk assessment: 0/100

fgb.mx

Verdict

0

OUT OF 100

CRITICAL RISK

fgb.mx shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 75%.

What this site appears to be

Website for Bufete Fregoso González — a Mexican law firm. Contains firm description, list of services/practice areas, team member names, contact details and office address. No sign-in or transactional UI present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What fgb.mx served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as the website of Bufete Fregoso González, a Mexican law firm offering professional legal services across civil, commercial, family, corporate, insolvency, intellectual-property, sports, and entertainment matters, with revenue apparently derived from client engagements, retainers, and professional fees.

Scam/Impersonation Risk

Page content does not show an identity contradiction, impersonation claim, phishing form, sign-in function, or transactional interface. However, the site is subject to multiple external malicious detections and a confirmed blacklist status from more than one source; this is a material contradiction to the otherwise conventional law-firm presentation and drives a high-risk posture for sensitive interaction. The observed suspicious inline scripts and elevated browser errors add technical concern, although the page itself does not exhibit wallet, credential-capture, or payment-form behavior. The domain has substantial registration continuity and archival presence, but that provenance does not neutralize the current external threat detections.

EVIDENCE

- The homepage identifies Bufete Fregoso González as a legal-services firm and contains no login or transactional interface; page analysis recorded no phishing indicators.
- External reputation checks recorded 4 malicious detections and 1 suspicious detection, with blacklist status confirmed.
- Domain registration: created 2013-10-15; age 12.86 years; registrar NEUBOX Internet SA de CV.
- Web archives contain 310 snapshots from 2016-03-06 through 2026-03-09, spanning 11 tracked years.

Regulatory Verification Notes

The About and Team material names Bufete Fregoso González and identifies Marco Antonio Fregoso González, Juan Manuel Fregoso Ramos, Fabiola Raygoza Tirado, and Lenin Omar Fregoso González. The contact material supplies an office address in Zapopan, Jalisco, a telephone number, and a privacy notice. The site does not state a professional license, registration number, or licensing authority, so the claimed legal practice and practitioner identities remain matters for independent confirmation rather than established proof. The registration record identifies Benjamin Heredia as the registrant, but the available evidence does not independently connect that registration record to the law firm. Transport security is present, but a domain-validated certificate confirms encryption rather than legal identity.

EVIDENCE

- The About/Team pages list the firm and four named practitioners.
- The Contact page publishes Av. Paseo Lomas Altas 292-C, Col. Lomas del Valle, Zapopan, Jalisco, CP 45128, together with a telephone contact.
- Domain registration record: created 2013-10-15; expires 2026-10-15; registrar NEUBOX Internet SA de CV; registrant listed as Benjamin Heredia.
- TLS certificate: issuer YR1; validation level DV; valid to 2026-10-03.

What to Verify Next

Before any sensitive engagement, an independent check should confirm that the named firm and practitioners are recorded with the applicable Mexican professional and business authorities. The published office and contact route should be validated through an independently sourced channel rather than relying solely on the website. Security personnel should also resolve the external malicious detections and review the suspicious script behavior before permitting credential, confidential-document, payment, or other sensitive interaction.

EVIDENCE

- Confirm the legal-practice and practitioner details against authoritative Mexican registries.
- Validate the business location and contact route using an independent offline or separately sourced channel.
- Obtain a technical explanation and remediation record for the external detections and suspicious script findings before sensitive use.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. Although the site has the content characteristics of a conventional professional-services website, the confirmed blacklist status and convergent malicious detections take precedence over its presentation and historical continuity; the real-world operator also remains unverified.

Infrastructure Integrity

The site resolves directly to one likely origin address and does not show a CDN or WAF layer. It is hosted on AS36454, WHG-DAL — WHG Hosting Services Ltd, GB; this provides a clearly attributable hosting path but offers no meaningful protective infrastructure mitigation for the identified reputation risk.

Closing Assessment

Access should remain limited to passive review until the external detections, legal identity, and contact routes have been independently resolved; credentials, confidential legal documents, payment information, and other sensitive data should not be submitted.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - The page carried inline scripts written in a style TrustSniffer treats as suspicious.
Behaviour in a sandbox rule:BEHAV_SUSPICIOUS_INLINE_SCRIPTS
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fgb.mx.

- The request stayed on fgb.mx. It was not redirected to another domain. CLEAR
- Registration is published under NEUBOX Internet SA de CV. CLEAR
- DNS for this domain is served by fcomet.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-15. NOTED
- The earliest public archive of this site is from 2016-03-06. CLEAR
- It is hosted on WHG-DAL, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fgb.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
