Full analysis

Overview

Finance News is a Portuguese-language financial media portal covering publicly traded companies, dividends, BDRs, economic developments, stock analysis, videos, and investment-related resources, with an apparent business model based on publishing, advertising, education, and financial consulting.

Scam/Impersonation Risk

No scam, phishing, impersonation, or identity contradiction was observed. The site's editorial content, navigation, and behavior are consistent with an informational financial-news publication rather than a deceptive investment solicitation, and no evidence indicates deposits for promised returns.

- The homepage presents financial news, dividend calendars, BDR coverage, company analysis, and investment resources.
- External reputation checks recorded zero malicious and zero suspicious detections, with no malicious search-safety result or blacklist hit.
- The historical record shows a continuous presence from 2016 through 2026, without suspicious repurposing.

Regulatory Verification Notes

The site has a conventional institutional, contact, and privacy-page structure and identifies its apparent owner in the registration record. Its offerings include financial journalism, advertising, investment courses, and personalized financial consulting. No license authority or license number is stated in the supplied page evidence; this is a transparency item for any regulated advisory activity, not evidence of deception. The available third-party broker context produced no match.

- Registration record: registered 2015 (~10.86 years old).
- Web archive: 137 snapshots spanning 2016–2026 (11 years tracked).
- The homepage and institutional navigation identify Finance News as an editorial financial-information service.
- The reviewed pages do not display a licensing authority or license number.

What to Verify Next

For any paid course or personalized consulting engagement, confirm the applicable authorization directly with the relevant official registry and review the service terms, fees, and refund provisions. Contact channels should

be confirmed through the site’s institutional or contact pages using an independent route where material commitments are involved.

- The site provides “Fale conosco” and “Institucional” pages for organizational and contact information.
- The site publishes a privacy-policy page describing its handling of visitor information.
- The homepage distinguishes news, analysis, education, and consulting-related offerings.

Summary Verdict

The website presents as a legitimate, established, and trustworthy financial-information service with no observed contradiction affecting its identity or security posture. Normal interaction, including account login where applicable, and standard use are appropriate.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN/WAF, and all observed addresses were CDN edge infrastructure rather than exposed origin addresses. This reduces direct infrastructure exposure and is a mitigating security signal, although it is not by itself proof of legitimacy.

- Hosted on AS13335 (CLOUDFLARENET — Cloudflare, Inc., US).
- TLS certificate issued by WE1 using DV validation, valid to 2026-10-05T18:16:13+00:00.

Closing Assessment

Standard browsing and account interaction may proceed normally; formal registry confirmation is appropriate before entering into any separately regulated advisory or paid-service relationship.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about financenews.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
