

Is fizikcenter.com legit? TrustSniffer's high-trust assessment: 100/100

fizikcenter.com

Verdict

100

OUT OF 100

HIGH TRUST

fizikcenter.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Marketing and booking landing page for Fizik Center, a physiotherapy and rehabilitation clinic offering diagnostic measurements, targeted treatments, and tiered care plans with contact details and pricing.

Evidence status and limitations

Evidence completeness:

UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://www.fizikcenter.com/>

What fizikcenter.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Fizik Center is a physiotherapy and rehabilitation clinic website presenting diagnostic measurements, targeted treatments, appointment booking, contact information, and tiered care plans for patients seeking recovery, pain management, and preventative physical-health services.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The site presents a coherent clinic-oriented service model, with treatment descriptions, booking functionality, and patient-facing contact content rather than investment, financial-return, or credential-harvesting mechanisms. A small number of abuse reports relate to a shared provider IP; the attribution is to shared infrastructure, confidence is zero, and the signal was discounted as not site-specific. The real-world operator remains independently unverified, so the site's apparent legitimacy should not be treated as proof of operator identity.

EVIDENCE

- The homepage describes physiotherapy and rehabilitation services, including musculoskeletal, spinal, postural, sports-injury, lymphedema, and post-operative care.
- The booking and contact functionality contains contact and appointment forms, with no login form, hidden sensitive form, wallet interaction, or external password form observed.
- The domain was registered on 2014-05-15 and is approximately 12.27 years old.
- The shared provider IP was associated with exactly 2 abuse reports, with an abuse-confidence score of 0; the attribution was marked as shared infrastructure.

Regulatory Verification Notes

The About, Contact, and For Companies pages present a consistent Fizik Center identity and a healthcare-service proposition. However, the supplied site content does not claim a licensing authority or provide a license number, leaving the clinic's regulatory standing for independent confirmation. This is a disclosure and verification gap rather than evidence of a scam. Registration is handled through GoDaddy.com, LLC, while the registration record uses a privacy service, which is an administrative limitation and does not establish an identity contradiction. The available evidence is otherwise consistent with an established website, including valid transport encryption and identifiable hosting infrastructure.

EVIDENCE

- The site's About and Contact content identifies Fizik Center as a physiotherapy and rehabilitation provider and presents clinic-related contact and location information.
- No licensing authority or license number is claimed in the supplied site content.
- The site is served through AS209242, identified as CLOUDFLARESPECTRUM - Cloudflare London, LLC, US.
- The TLS certificate uses WE1, has DV validation, and is valid to 2026-11-11T21:28:59+00:00.

What to Verify Next

Before credential or payment interactions, independently confirm the clinic's legal entity, practitioner credentials, and any applicable healthcare registration with the relevant official registry. Obtain the applicable cancellation, refund, and prepaid-care-plan terms, and confirm the clinic's contact channels through an independent route before submitting personal or medical information. Payment should use a method providing appropriate consumer protections.

EVIDENCE

- The homepage advertises appointment booking and Basic, Standard, and Premium care-plan options.
- The site provides contact and booking forms but does not present a login workflow or a sensitive credential-submission form.
- The supplied analysis found no confirmed malicious, phishing, or brand-impersonation behavior.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate, low-risk healthcare website and supports a high-trust posture. No scam or impersonation contradictions were observed, but the operator's real-world identity has not been independently verified.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and all observed addressing corresponds to a CDN edge rather than an identified origin candidate. This provides a meaningful exposure-mitigation layer, but remains a protective technical control rather than proof of business legitimacy.

EVIDENCE

- Cloudflare CDN/WAF protection was observed for the site.
- The observed edge address was 198.202.211.1, with no origin candidate identified in the infrastructure analysis.

Closing Assessment

Normal browsing and appointment research are proportionate to the current assessment; independent identity, healthcare-registration, service-term, and payment-protection checks should be completed before committing credentials, personal information, or funds.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 2 reports on hosting IP 2620:cb:2000::1 (Webflow, Inc, Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fizikcenter.com.

- The request stayed on fizikcenter.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED

- The registration is paid up to 2027-05-15. NOTED
- The earliest public archive of this site is from 2015-11-18. CLEAR
- It is hosted on CLOUDFLARESPECTRUM, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fizikcenter.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
