

Is fomostore.in legit? TrustSniffer's high-trust assessment: 100/100

fomostore.in

Verdict

100

OUT OF 100

HIGH TRUST

fomostore.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 70%.

What this site appears to be

Fomo Store is an Indian ecommerce storefront offering laptop and mobile skins, cases, stickers, posters, and customized merchandise. The page presents extensive product listings with INR pricing, customer reviews, installation content, social-media activity, order tracking, contact access, and returns/refunds navigation.

Evidence status and limitations

Evidence completeness: UNKNOWN

Key findings

- Automated classification: Not Scam.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2021.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

This Indian e-commerce storefront sells laptop and mobile skins, phone cases, stickers, posters, and customized merchandise through direct online retail and bulk orders, presenting INR-denominated listings, customer reviews, installation guidance, order tracking, and account access.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, malicious reputation findings, or deceptive financial promises were observed. The domain has a sustained archival record, while the homepage presents a coherent physical-goods business model and the observed browser sessions showed no cloaking, hidden forms, suspicious scripts, clipboard interference, or untrusted outbound submissions.

- The domain registration record identifies Brothers Innovation, with registration through GoDaddy.com, LLC in 2024; the registration was approximately 2.26 years old at the time of assessment and runs to 27 April 2027.
- The web archive contains 66 snapshots spanning December 2021–February 2026, covering 6 tracked calendar years, with no detected repurposing or semantic drift.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no search-browser safety finding, and inclusion within the top 1,000,000 globally ranked domains.
- Two successful homepage behavior runs detected no cloaking, hidden forms, external form posts, wallet interactions, clipboard hijacking, or suspicious inline scripts.

Regulatory Verification Notes

The homepage describes ordinary retail sales rather than a regulated financial, investment, brokerage, or virtual-asset service; no licensing claim is therefore expected from the presented business model. The registration record provides an organizational identity, and the site's established page footprint supports that identity without conflicting legal-entity names. The supplied homepage evidence does not, however, establish the completeness of any separate corporate terms or statutory merchant disclosures; this is a minor documentation consideration rather than a legitimacy concern.

- The homepage identifies the service as a technology-accessories and decorative-products store offering physical merchandise through direct and custom-order sales.
- The domain registration record names Brothers Innovation as the organization and GoDaddy.com, LLC as registrar.

- The homepage makes no investment, brokerage, lending, token, yield, or other regulated-financial-service claim.
- The broker-reputation dataset produced no matched broker profile, consistent with the site's non-broker retail model.

What to Verify Next

Before placing an order, purchasers should review the applicable return and refund conditions, confirm product compatibility and customization specifications, and retain the order confirmation and payment record. For unusually large or bulk purchases, the merchant's official contact channel and fulfillment terms should be confirmed independently.

- The homepage provides navigation to returns and refunds information, order tracking, installation videos, and model-request functionality.
- Product presentation includes listed retail pricing, customer reviews, and device-specific categories that support pre-purchase compatibility checks.
- The storefront provides account, login, cart, contact, and order-management access appropriate to a conventional online retail transaction.

Summary Verdict

The website is a legitimate, established, and trustworthy e-commerce operation. Its coherent commercial identity, sustained operating history, clean external reputation, and benign observed behavior converge on a high-confidence trust posture, with no contradictory risk signals identified.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, and the observed address was an edge endpoint rather than the origin server. This reduces direct origin exposure and provides standard traffic-filtering protection, although infrastructure protection is a mitigating security control rather than independent proof of business legitimacy.

- The site was served from AS13335 (CLOUDFLARENET — Cloudflare, Inc., US) through edge IP address 23.227.38.65; all observed addresses were CDN edge infrastructure.
- Transport encryption used a valid domain-validated certificate issued by YE1, valid until 6 September 2026.

Closing Assessment

Normal interaction, including account login, routine purchases, and standard account actions, is appropriate, subject to customary e-commerce checks on order details and payment records.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100

Identity verification confidence	76%
----------------------------------	-----

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fomostore.in.

- The request stayed on fomostore.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-27. NOTED
- The earliest public archive of this site is from 2021-12-03. CLEAR
- It is hosted on CLOUDFLARENET, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fomostore.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
