

Is fonsekasinsong.com a scam? TrustSniffer's high-risk assessment: 0/100

fonsekasinsong.com

Verdict

0

OUT OF 100

CRITICAL RISK

fonsekasinsong.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 75%.

What this site appears to be

A small informational site for two classical singers (soprano and tenor) providing names, biographies, repertoire/performances, and contact/booking information. Content appears static and non-commercial beyond bookings.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

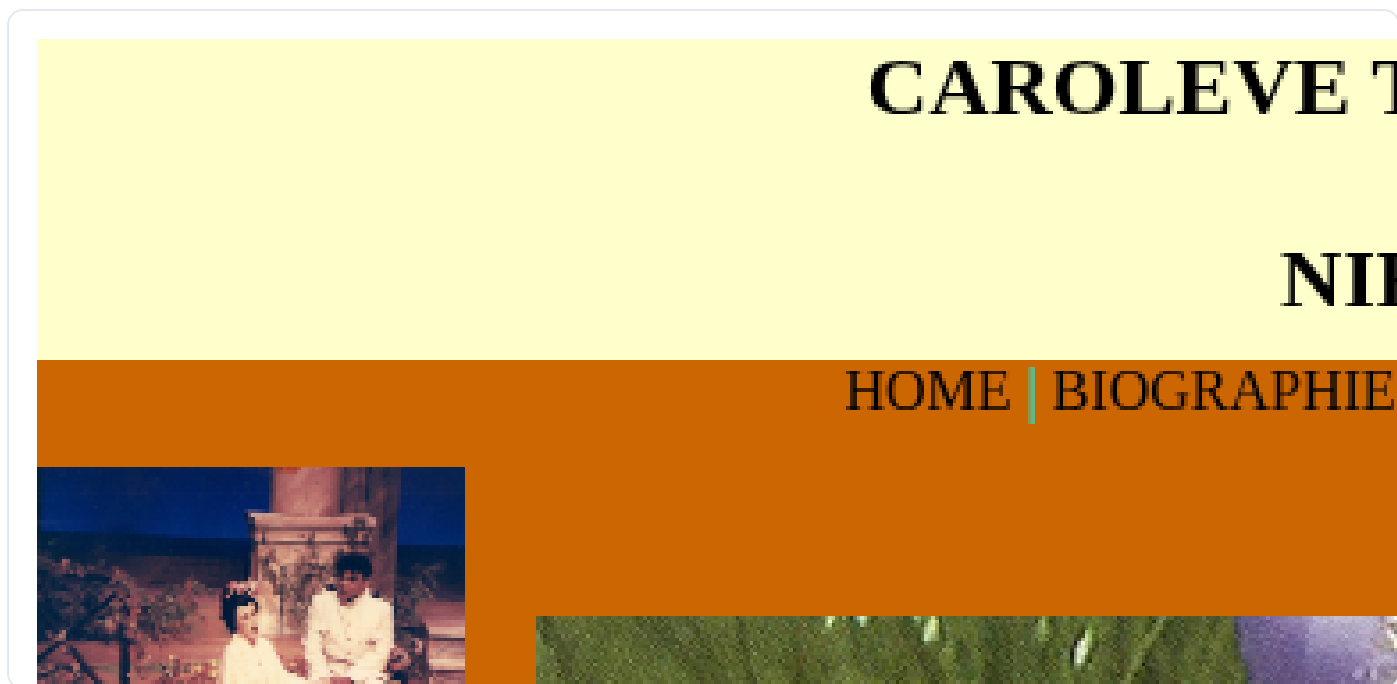

At a glance

The page as captured

<https://fonsekasinsong.com/>

What fonsekasinsong.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a small personal portfolio for classical singers Caroleve Thompson-Fonseka and Nihal Fonseka, presenting biographies, repertoire, performance references, video and music material, and contact or booking information rather than an online financial or transactional service.

Scam/Impersonation Risk

Contradictory risk signals were observed. The site's homepage presents a benign, static artist profile with no apparent login, payment, or credential-collection function, but external threat intelligence records a confirmed **blacklist** hit and multiple malicious detections for the domain. This conflict means the apparently harmless presentation cannot be treated as sufficient evidence of safety, particularly for any sensitive interaction. No brand impersonation or phishing mechanism was identified in the supplied page-level findings, but the domain's reputation signal remains decisive for the cautious assessment.

EVIDENCE

- The homepage and biography, repertoire, and contact/booking pages describe two classical singers and contain no observed login or sensitive-data form.
- The domain was registered on 2011-06-29 and is approximately 15.15 years old.
- Web-archive records contain 274 snapshots spanning 2013-07-22 to 2026-02-19, across 14 tracked years.

Regulatory Verification Notes

The apparent business model is artist promotion and booking, not a regulated financial service, so a financial licence is not evidently relevant to the stated purpose. Nevertheless, the real-world operator identity is not independently verified by the supplied evidence, and the site's limited informational presentation does not establish who controls the domain or who would receive a booking engagement. The confirmed blacklist signal should be treated as a material security and reputational issue rather than as a licensing determination. The domain's registration and transport records provide technical continuity, but they do not validate the site's operator or business claims.

EVIDENCE

- Registration records identify FastDomain Inc. as registrar; the recorded creation date is 2011-06-29 and expiry date is 2027-06-29.
- The site is hosted on AS32244, Liquid Web, L.L.C., United States.
- The transport certificate is DV-validated, issued by YR1, and valid to 2026-11-13.

What to Verify Next

Before any booking commitment or exchange of personal or payment information, independently confirm that the two named artists and the domain are connected through an established external or offline channel, such as a venue, agency, institution, or previously known professional contact. Confirm the intended booking counterparty, contract terms, cancellation arrangements, and payment destination through that independent route; sensitive credentials and financial details should not be submitted based solely on this website.

EVIDENCE

- The captured site contains no login form, hidden form, password-external form, or wallet-connection activity.
- The site presents contact/booking as its apparent engagement mechanism, with no observed online payment workflow.

Summary Verdict

The overall posture is **critical trust risk** because confirmed external threat and blacklist signals materially outweigh the site's otherwise ordinary portfolio presentation and technical continuity. The website may represent a genuine artist-information page, but its legitimacy and operator identity are not sufficiently established for sensitive interaction.

Infrastructure Integrity

The site resolves directly to one observed address on Liquid Web’s AS32244 infrastructure in the United States, with no CDN detected in the supplied resolution data. The hosting arrangement is technically ordinary and does not itself establish maliciousness, but it provides no observed CDN/WAF layer that would materially mitigate the reputation concern.

Closing Assessment

Treat the site as suitable only for passive review unless the artists, booking counterparty, and payment arrangements are independently confirmed through a trusted channel.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fonsekasinsong.com.

- The request stayed on fonsekasinsong.com. It was not redirected to another domain. CLEAR
- Registration is published under FastDomain Inc.. CLEAR
- DNS for this domain is served by fonsekasinsong.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-29. NOTED
- The earliest public archive of this site is from 2013-07-22. CLEAR
- It is hosted on LIQUIDWEB, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fonsekasinsong.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
