

Is fortalassessoria.com.br legit? TrustSniffer's high-trust assessment: 100/100

fortalassessoria.com.br

Verdict

100

OUT OF 100

HIGH TRUST

fortalassessoria.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Corporate site for Fortal Assessoria Comércio Exterior LTDA (founded 1998) offering customs clearance, international freight (maritime, air, road), cargo consolidation, fiscal classification, insurance and related advisory services. Contact information and services listed; no evident forms or financial solicitations on the captured page.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the corporate service site of Fortal Assessoria Comércio Exterior LTDA, presenting customs brokerage, international freight forwarding by sea, air, and road, cargo consolidation, fiscal classification, insurance, documentation, and import/export advisory services for business customers.

Scam/Impersonation Risk

No scam, phishing, impersonation, or conflicting-identity contradictions were observed. The homepage presents a coherent corporate logistics model rather than investment, cryptocurrency, gambling, or other high-abuse offerings; it contains no login form, sensitive-data form, or evident financial solicitation. External reputation checks likewise returned no malicious or suspicious detections, supporting a low-risk interpretation of the captured site. The available evidence is therefore consistent with an established, apparently legitimate website, while not independently proving the real-world operator's identity.

EVIDENCE

- Homepage: corporate content describes customs brokerage and logistics services, with no evident financial solicitation.
- Homepage behavior: no login form, hidden sensitive form, wallet interaction, or suspicious external submission was detected.
- External reputation checks: malicious detections 0; suspicious detections 0; phishing-site indicator false; blacklist indicator false.
- Domain history: registered 2004-12-06 and approximately 21.72 years old; recorded archive coverage lists 76 snapshots from 2009-05-07 through 2024-12-18 across 16 tracked years.

Regulatory Verification Notes

The site identifies itself as Fortal Assessoria Comércio Exterior LTDA and states that the business was founded in 1998. Its content is consistent with a conventional Brazilian customs and freight-forwarding provider, but the captured material does not disclose a license number, registration reference, or named regulatory authority. That is a verification and disclosure gap rather than evidence of a scam. The legal-entity presentation is apparent rather than independently verified, so the on-site name should not be treated as conclusive proof of the operator's identity. A valid domain registration, known-issuer TLS certificate, and stable hosting provide supporting infrastructure evidence but do not substitute for independent corporate or regulatory confirmation.

EVIDENCE

- About/company content: identifies "Fortal Assessoria Comércio Exterior LTDA" and states that the company was founded in 1998.
- Hosting infrastructure: served from AS23105, BCMG INTERNET LTDA, Brazil.
- Transport encryption: TLS certificate issued by YR2, validation level DV, valid to 2026-10-28.
- Captured legal/service content: no license number or regulatory authority reference was identified.

What to Verify Next

Before credential or payment interactions, an institution should independently match the legal entity and its contact details against an authoritative company record, confirm any authorization applicable to the proposed customs or freight service with the relevant authority, and obtain written service, cancellation, liability, and payment-protection terms. Contact details should also be confirmed through an independently sourced channel rather than relying solely on the website.

EVIDENCE

- Contact section: published business contact information is available for independent channel comparison.
- Captured page: no sensitive form or untrusted submission destination was identified.
- Technical behavior: two of two captured runs completed successfully, with no external XHR or fetch activity recorded.

Summary Verdict

The overall posture is high trust and low risk, with the available evidence converging on an established, apparently legitimate corporate website. No scam or impersonation contradictions were observed. The classification supports ordinary business interaction, subject to the separate limitation that the real-world operator identity remains independently unverified.

Infrastructure Integrity

The domain resolves directly to a single identified hosting endpoint on AS23105, BCMG INTERNET LTDA, without a detected CDN or WAF layer. The site’s valid DV TLS certificate mitigates transport-level interception risk, while the absence of intermediary edge infrastructure means the hosting arrangement itself should be understood as direct rather than as an independent legitimacy signal.

Closing Assessment

Proceed with normal business diligence, including independent identity, service-term, cancellation or return-policy, and payment-protection checks before submitting credentials or making payments.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fortalassessoria.com.br.

- The request stayed on fortalassessoria.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2034-12-06. CLEAR
- The earliest public archive of this site is from 2009-05-07. CLEAR
- It is hosted on AS23105, from a server in BR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fortalassessoria.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
