

Is freightwinglogistics.com safe? TrustSniffer's moderate-trust assessment: 70/100

freightwinglogistics.com

Verdict

70

OUT OF 100

MODERATE TRUST

freightwinglogistics.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Not Scam

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

A simple marketing/landing page for 'Freight Wing Logistics' with repeated headings, a newsletter signup form, cookie consent, and promotional copy. No login, payment, or high-risk financial solicitations present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What freightwinglogistics.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Freight Wing Logistics is a corporate logistics-services landing website presenting the message “Efficient Logistics Solutions Delivered” and inviting visitors to subscribe for updates or initiate a business inquiry. Its apparent business model is lead generation for logistics services rather than direct e-commerce, financial services, or account-based activity.

Scam/Impersonation Risk

No blacklist, phishing, malware, brand-impersonation, or conflicting-identity contradiction was observed. The homepage presents a conventional logistics marketing proposition, with no login, payment, wallet-connection, or other sensitive workflow. Dynamic testing did identify unusually extensive external network activity, including external requests and posts, but the observed behavior did not include hidden forms, password collection, wallet-drainer activity, or cloaking. A separate reputation signal concerns abuse reports against shared Amazon CDN infrastructure; because the reports are attributed to the shared provider IP rather than specifically to this website, they are a soft infrastructure-reputation signal and not evidence of impersonation or fraud.

EVIDENCE

- Homepage: “Freight Wing Logistics” and “Efficient Logistics Solutions Delivered” are presented as the principal business identity; no impersonation indicator was detected.
- Homepage behavior: one newsletter-signup form was observed, with no login form, hidden form, password submission, wallet connection, or clipboard-hijacking behavior.
- Dynamic interaction telemetry: 101 external XHR requests were observed, including 98 non-whitelisted XHR requests; both observed external POST requests were non-whitelisted, and the maximum external activity ratio was 96.9%.
- Shared infrastructure reputation: 13 abuse reports were associated with IP 76.223.105.230, with a confidence score of 26 and attribution classified as shared infrastructure.

Regulatory Verification Notes

The available page supports an ordinary small-business logistics interpretation and does not present financial, investment, or other clearly regulated offerings. It displays the trading name “Freight Wing Logistics” and a 2025 copyright notice, but the supplied content does not independently establish a legal entity, licensing status, or registration number. This is a transparency item for commercial due diligence rather than evidence of a scam. Domain registration is private through GoDaddy.com, LLC, which is an administrative registration detail; the broader technical evidence remains consistent with an established web presence. The site uses valid domain-validated transport encryption issued by a known certificate authority.

EVIDENCE

- Domain registration: Registered 2020-12-01 (~5.72 years old); registrar recorded as GoDaddy.com, LLC.
- Homepage: the visible business disclosure consists of the name “Freight Wing Logistics,” service-oriented promotional copy, newsletter subscription, and a 2025 copyright notice.
- Hosting and TLS telemetry: TLS certificate issued by GoDaddy TLS Intermediate CA DV - R1v1 (DV), valid to 2027-03-06.
- Page content: no license claim, license authority, or license number was identified in the supplied business-page content.

What to Verify Next

Before entering into a material logistics contract or sharing sensitive commercial information, the prospective counterparty should independently confirm the legal entity behind the published trading name, validate any required business registrations with the relevant jurisdiction, and confirm the official contact channels through an independent source. Any later request for payment, credentials, or documents should be assessed against the verified counterparty identity and agreed contractual process rather than relying solely on the landing page.

EVIDENCE

- Identity review basis: the supplied site content provides a business-facing trading name but no independently verified legal-entity details.
- Regulatory review basis: no licensing or registration identifier is presented in the available page content.
- Interaction review basis: the identified homepage form is a newsletter signup and does not itself establish a payment or credential-collection workflow.

Summary Verdict

The overall posture is **moderate trust**. Available evidence is consistent with an apparently legitimate, ordinary logistics website, and no scam or impersonation contradiction was observed. Independent operator identity remains unverified, so the site should not be treated as conclusive proof of the real-world counterparty behind the name.

Infrastructure Integrity

The website is served through Amazon.com, Inc. infrastructure and protected by a CDN/WAF layer; observed addresses are CDN edge servers, and no origin candidate was identified. This reduces direct origin exposure and provides a mitigating infrastructure signal, but CDN protection alone does not establish business legitimacy.

EVIDENCE

- Hosting telemetry: Served from AS16509 (Amazon.com, Inc., US).
- Infrastructure posture: 2 observed IP addresses were classified as CDN edge addresses, with 0 likely origin IP candidates.
- CDN/WAF observation: the site is protected by a CDN/WAF layer, with edge addresses 13.248.243.5 and 76.223.105.230.

Closing Assessment

Routine browsing and ordinary business inquiry may proceed, while independent counterparty confirmation should precede high-value commitments or the submission of sensitive commercial information.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Dynamic Interaction Caution

- The page made background requests to destinations TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

- The page exchanged network traffic with destinations TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC

- Most of what the page loaded came from other domains rather than from this one.

Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

Signals weighed against the site

- AbuseIPDB: 13 reports on hosting IP 76.223.105.230 (Amazon.com, Inc., Content Delivery Network), 26% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of freightwinglogistics.com.

- The request stayed on freightwinglogistics.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GoDaddy.com, LLC. [CLEAR](#)
- DNS for this domain is served by domaincontrol.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2026-12-01. [NOTED](#)
- The earliest public archive of this site is from 2020-12-14. [CLEAR](#)
- It is hosted on AMAZON-02, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about freightwinglogistics.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
