### Overview

This website is the public-facing site of Fundação São Francisco Xavier, a Brazilian nonprofit healthcare foundation presenting hospitals, health-plan services, occupational health, education, research, charitable assistance, donations, and public transparency programs.

### Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent institutional healthcare identity, with no detected phishing, malware, deceptive financial, hidden-form, wallet-connection, or suspicious network behavior. Its content, operating model, and public-service orientation are consistent across the homepage and organizational materials.

#### EVIDENCE

- The homepage identifies Fundação São Francisco Xavier and presents healthcare, education, research, donation, and transparency functions.
- Browser testing recorded no login form, hidden forms, sensitive form, external posts, wallet activity, or clipboard-hijacking behavior.
- The domain was registered in 2000 and is 26.55 years old.
- The archive contains 488 snapshots spanning 2014–2026, with 13 years tracked.

### Regulatory Verification Notes

The site provides substantial governance and disclosure material, including its organizational identity, statute, directors and advisors, compliance program, code of ethics, privacy policies, sustainability reporting, financial statements, and transparency portal. No specific license number or licensing authority is identified in the supplied page content; this is a regulatory-transparency point for confirmation, not evidence of impersonation or fraud.

#### EVIDENCE

- The governance area provides the statute, directors and advisors, compliance program, and code of ethics.
- The transparency area provides financial statements, sustainability reporting, and public accountability information.
- Hosting was identified as AS20940, Akamai International B.V., NL.
- TLS uses DigiCert Global G3 TLS ECC SHA384 2020 CA1 with OV validation, issued to Fundação São Francisco Xavier, valid through 2026-10-20.

#### What to Verify Next

Confirm any applicable healthcare, health-plan, or charitable authorizations through the relevant official Brazilian registries, and independently validate material payment or donation instructions using the foundation’s published institutional contact routes.

#### EVIDENCE

- The site provides dedicated contact, ombudsman, communication, supplier, and donation areas.
- The site publishes compliance, privacy, governance, and financial-reporting materials for independent review.

#### Summary Verdict

The website presents as a legitimate, established, and trustworthy institutional entity with a coherent public-facing purpose and no observed scam or impersonation indicators. Normal interaction, including account login and standard use, is appropriate.

#### Infrastructure Integrity

Akamai edge infrastructure provides a mainstream protective hosting layer, while the organization-bound OV certificate supplies an additional identity-linked transport signal. These controls mitigate exposure and support service integrity, but are supporting factors rather than proof of legitimacy by themselves.

#### Closing Assessment

Prospective users may proceed with normal engagement while applying routine organizational controls appropriate to healthcare and charitable transactions.

### About this assessment

A trust score summarises the evidence TrustSniffer could collect about fsfx.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
