

Is fudan.edu.cn legit? TrustSniffer's high-trust assessment: 100/100

fudan.edu.cn

Verdict

100

OUT OF 100

HIGH TRUST

fudan.edu.cn appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 45%.

What this site appears to be

Official Fudan University website with extensive Chinese-language content: university overview, departments, news, events, lectures, admissions, contact details and campus history.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What fudan.edu.cn served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This is the Fudan University institutional website, presenting Chinese- and English-language information about the university, its governance, history, academic departments, admissions, research, news, events, campus services, and contact channels; its apparent purpose is public education, recruitment, institutional communication, and outreach rather than direct online commerce.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent university information architecture, including governance, academic faculties, admissions, research, campus services, and institutional news, with no observed phishing indicators, sensitive login form, wallet interaction, or untrusted form destination. External screening found no malicious or suspicious detections, while the site's established traffic footprint and consistent academic presentation further support an apparently legitimate institutional role. This supports a low scam and impersonation risk assessment, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies “复旦大学 Fudan University” and provides institutional navigation for governance, university history, faculties, admissions, research, campus life, and public contact services.
- The homepage contained no login form, hidden sensitive form, untrusted form destination, wallet connection, or suspicious inline script.
- External screening recorded 0 malicious detections, 0 suspicious detections, and 0 abuse reports.

Regulatory Verification Notes

The site's stated activity is academic and informational, not a financial or other regulated service. Its identity presentation is consistent across the university overview, governance, history, charter, admissions, and contact content, but the available evidence does not independently verify the real-world operator. No financial-services license or registration number is presented, which is a verification boundary for any activity outside the site's stated educational purpose rather than evidence of a scam. The academic domain context, coherent institutional content, clean external reputation, and organization-validated transport encryption are consistent with an established site.

EVIDENCE

- The institutional navigation includes university overview, governance architecture, university charter, history, faculty, admissions, research, and public contact sections.
- The site uses the academic domain `fudan.edu.cn`.
- Hosted on AS4538, ERX-CERNET-BKB - China Education and Research Network Center, CN.
- TLS certificate issued by sslTrus (RSA) OV CA for subject organization 复旦大学, valid to 2027-04-10T23:59:59+00:00.

What to Verify Next

Before any credential or payment interaction associated with a service presented as connected to the university, independently confirm the relevant institutional contact channel and the exact recipient through an offline or separately sourced route. If a proposed activity involves regulated financial services rather than ordinary university administration, confirm the responsible entity and its authorization with the applicable official registry; for any payment, also confirm the applicable payment-protection and refund arrangements.

EVIDENCE

- The institutional contact section publishes contact details suitable for independent confirmation.
- Admissions content distinguishes undergraduate, graduate, and international education pathways, providing a clear basis for checking whether a proposed interaction belongs to the university's stated activities.

Summary Verdict

The overall posture is high trust and low risk. Available evidence is consistent with an established, apparently legitimate university website, with no observed scam, phishing, impersonation, or other contradictory signal. The

classification supports normal informational use, while the operator’s independent real-world identity remains unverified.

Infrastructure Integrity

The supplied infrastructure record identifies no infrastructure-based contradiction. No CDN or WAF attribution is supplied, so protective edge services are not relied upon as evidence of legitimacy.

Closing Assessment

Ordinary browsing and institutional information use are proportionate to the assessed posture; independent identity, recipient, and payment-protection checks should precede credential or payment interactions.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fudan.edu.cn.

- The request stayed on fudan.edu.cn. It was not redirected to another domain. CLEAR
- It is hosted on ERX-CERNET-BKB, from a server in CN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fudan.edu.cn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
