Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is the institutional presence of Fundação Itaú, presenting philanthropic initiatives in education, arts, culture, research, scholarships, and social development for the Brazilian public, with no observed solicitation of payments or investments.

Scam/Impersonation Risk

No identity contradictions, impersonation indicators, phishing behavior, or malicious reputation signals were observed. The institutional content consistently presents Fundação Itaú's public-interest mission, while the domain's established provenance and continuous historical presence materially support its authenticity.

- The homepage consistently identifies the institution as Fundação Itaú and contains no deceptive branding, hidden forms, login prompts, or sensitive-data collection.
- External threat telemetry recorded zero malicious and zero suspicious detections, no safe-browsing alert, no reported abuse, and no signature matches for the assessed domain.
- The domain registration record identifies "FUNDACAO ITAU PARA A EDUCACAO E CULTURA" as the owner; registered 2019 (~6.63 years old), with expiration on 2027-12-16.
- The web archive contains 54 snapshots spanning 2020-08-06 to 2026-06-17 (7 years tracked), with no detected suspicious repurposing or semantic drift.

Regulatory Verification Notes

The assessed homepage represents a philanthropic foundation rather than a financial, brokerage, investment, or cryptocurrency service. It makes no licensing claim and presents no regulated financial offering requiring such a claim in the observed content. The available on-page material does not conclusively establish the full set of corporate-registration particulars, but this is a minor disclosure consideration rather than a legitimacy concern; no broker-database match was identified, which is consistent with the site's non-broker function and is not a regulatory determination.

- The homepage describes an institutional foundation focused on public-interest programs and does not offer investments, trading, payment services, cryptoassets, or financial returns.
- The homepage provides organizational context, news, educational initiatives, cultural programs, research, scholarships, contact information, employment opportunities, and privacy terms.
- The hosting infrastructure is served from AS16509 (AMAZON-02 — Amazon.com, Inc., US).

- The site's transport encryption uses a DV TLS certificate issued by Amazon RSA 2048 M04, valid to 2026-11-28.

What to Verify Next

For institutional due diligence, the legal name and current corporate particulars can be confirmed through the applicable Brazilian registry. Prospective applicants should validate scholarship, course, employment, or public-call conditions against the institution's official documentation, and independently confirm official contact channels before exchanging non-public information.

- The homepage promotes courses, scholarships, academic programs, and institutional calls whose individual eligibility and participation terms may vary.
- The homepage includes employment and contact pathways that may involve subsequent interaction outside the informational landing page.
- The homepage references privacy terms, providing a basis for reviewing how personal information is handled before submitting application material.

Summary Verdict

The website is a legitimate, established, and trustworthy institutional presence. Its identity, provenance, benign behavior, clean external reputation, and coherent public-interest content converge without contradictory risk signals.

Infrastructure Integrity

The site is protected by AWS CloudFront CDN/WAF infrastructure. All four observed addresses were Amazon edge servers, so the origin server was shielded from direct observation; this is a conventional exposure-reduction measure and a mitigating infrastructure signal, not independent proof of legitimacy.

Closing Assessment

Normal interaction, including standard site use and any genuine account login offered through the institution's official workflows, is appropriate; routine organizational due diligence remains proportionate for formal applications or institutional engagement.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fundacaoitau.org.br.

- The request stayed on fundacaoitau.org.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-03.org, across 4 name servers. NOTED
- The registration is paid up to 2027-12-16. CLEAR
- The earliest public archive of this site is from 2020-08-06. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fundacaoitau.org.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
