Full analysis

Overview

Fundación UNAM is an established university-affiliated nonprofit foundation website presenting programs, donation options, fundraising activities, transparency resources, institutional news, and support for UNAM students, research, culture, and heritage.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent charitable purpose, detailed organizational content, donation programs, institutional activities, and no apparent phishing, impersonation, or deceptive financial signals. External reputation checks returned no malicious or suspicious detections, while the domain maintains an established traffic footprint. The domain has a long registration history through AKKY ONLINE SOLUTIONS, S.A. DE C.V., and its sustained historical presence is consistent with the current nonprofit identity.

- The homepage identifies Fundación UNAM and describes donations, scholarships, research support, cultural programs, and fundraising.
- External checks recorded 0 malicious detections, 0 suspicious detections, and no phishing or impersonation matches; traffic rank was 501242.
- The domain was registered in 2008 (~17.65 years old).
- The web archive recorded 673 snapshots spanning 2009–2026 (18 years tracked).

Regulatory Verification Notes

The legal and transparency material is comparatively substantive: the site provides its history, mission, principles, board information, statutes and acts, annual reports, contact information, and donation explanations. No license or registration number is claimed in the supplied content, so formal charitable or tax-status verification remains a documentation point rather than an indication of deception. The site's transport security and hosting posture provide additional technical consistency.

- The transparency section links to statutes, acts, annual reports, and Consejo Directivo information.
- Served from AS15169 (Google LLC / Google Cloud).
- TLS certificate issued by YR2 (DV), valid to 2026-10-19.
- The site's content includes one contact form and published privacy-related material.

What to Verify Next

For institutional onboarding or material donations, confirm the foundation's current legal and charitable status through the relevant Mexican registry or directly through UNAM's independently published institutional channels. Donation recipients and payment instructions should also be matched against those independent channels before materially changing payment details.

- The site publishes contact information, donation methods, and institutional support descriptions on its homepage and donation pages.
- The site links to Facebook, Instagram, and YouTube as public organizational channels.

Summary Verdict

The website has a high-trust posture supported by consistent identity, substantial organizational content, long-term continuity, clean external reputation, and stable technical operation. Normal interaction, including account login where applicable and standard use, is appropriate.

Infrastructure Integrity

The site resolves through Google Cloud infrastructure without separately identified CDN edge or origin candidates. This is a straightforward hosting posture, and the infrastructure signal is mitigating but not, by itself, proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal site interaction and standard donation activity, applying ordinary institutional payment and record-keeping controls.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fundacionunam.org.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
