Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2008.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Fundamentus is an established Brazilian financial-information and investment-research portal presenting market data, fundamental analysis, stock screening, company comparisons, historical statements, charts, and related research tools for investors.

Scam/Impersonation Risk

No contradictions were observed, including no phishing, impersonation, confirmed blacklist, or malicious-reputation findings. The homepage presents a coherent informational model built around Brazilian equities, valuation indicators, stock screening, financial statements, and market research; it does not show credential harvesting, payment solicitation, or deceptive investment guarantees. The long, continuous domain history and alignment between the site's stated purpose and observed content further support authenticity.

- Domain registered 2008-02-18; age 18.46 years, based on registration records.
- 721 archive snapshots spanning 2008–2026, covering 19 years.
- Homepage contains one search form only; no login or sensitive-data form was observed.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

The site operates as an informational research service rather than presenting itself as a deposit-taking or return-promising investment provider. No license or registration number is claimed in the reviewed content; this is a transparency item for regulatory verification, not evidence of deception. The registered ownership record names Marcelo Correia Afonso, and no conflicting legal identities were identified. A clean external reputation, established history, valid transport encryption, and mainstream hosting support the site's established identity.

- Served from AS47583, AS-HOSTINGER — Hostinger International Limited, CY.
- TLS certificate issued by YE1 with DV validation, valid to 2026-09-14.
- Registration record lists owner Marcelo Correia Afonso and expiration date 2029-02-18.
- The homepage describes financial-information and research functionality without claiming a regulatory license.

What to Verify Next

For institutional or regulated use, confirm with the relevant Brazilian registry whether the intended activity requires authorization beyond provision of financial information. Confirm official support and contact channels

through an independently sourced route before relying on them for account or service matters.

- The homepage provides an “Entre em contato” contact route.
- The site identifies itself as an online system for financial and fundamental company information.
- The reviewed content includes no stated license number or regulatory authority.

Summary Verdict

The overall posture is high trust. The evidence supports a legitimate, established, and trustworthy financial-information website with a coherent business purpose and no observed indicators of scam or impersonation.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and all observed addressing was associated with a CDN edge rather than an exposed origin server. This reduces direct infrastructure exposure and is a mitigating security signal, but it is not by itself proof of legitimacy.

Closing Assessment

Normal interaction, including account login where offered and standard use of the service, is appropriate; regulated or material investment decisions should remain subject to the institution’s ordinary independent due diligence.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of fundamentus.com.br.

- The request stayed on fundamentus.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2029-02-18. CLEAR
- The earliest public archive of this site is from 2008-05-23. CLEAR
- It is hosted on AS-HOSTINGER, from a server in LT. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fundamentus.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
