Full analysis

Overview

FundéuRAE is an established Spanish-language foundation website sponsored by Agencia EFE and the Real Academia Española, providing language recommendations, consultations, news, educational resources, and newsletter content rather than selling products or soliciting investments.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or malicious reputation findings were observed. The homepage presents a coherent institutional and educational purpose, with no deceptive financial mechanics, credential-harvesting login flow, wallet activity, or suspicious redirects. External reputation checks were clean, and the domain has a sustained public presence consistent with the current service.

- Homepage: informational language guidance, consultations, news, and educational content; no investment solicitation or login form.
- Homepage interaction behavior: no hidden forms, cloaking, wallet-drainer activity, clipboard hijacking, or suspicious inline scripts.
- Domain history: registered 20.974674880219027 years ago; 5,000 archive snapshots spanning 2005–2026 across 22 years.
- External reputation: zero malicious and zero suspicious detections in the evaluated checks; abuse reports were zero.

Regulatory Verification Notes

The “Sobre la FundéuRAE” content identifies the foundation’s institutional sponsorship and explains its public-interest language mission. The reviewed site does not present a financial license or registration number; given that its stated activity is informational and educational rather than financial, this is a limited disclosure note rather than evidence of deception. The site’s valid transport security and identifiable hosting infrastructure provide additional technical consistency.

- About page: identifies sponsorship by Agencia EFE and the Real Academia Española.
- Hosting telemetry: served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate: issued by WE1, domain-validated (DV), valid to 2026-10-20T02:14:29+00:00.
- Authority context: established page content and institutional references are consistent with the stated foundation model.

What to Verify Next

For formal due diligence, independently confirm the sponsoring relationships through official Agencia EFE and Real Academia Española channels and review any disclosure obligations applicable to the foundation’s activities. Routine newsletter or inquiry submissions should be limited to information necessary for those services.

- Institutional verification target: the sponsorship statements on the “Sobre la FundéuRAE” page.
- Service verification target: the newsletter subscription and contact-inquiry forms on the homepage.
- Disclosure review target: the site’s legal and institutional information pages.

Summary Verdict

The website presents as legitimate, established, and suitable for normal interaction. Its institutional identity, consistent informational purpose, clean reputation, and long-running public presence converge on a high-trust posture with no observed impersonation or fraud contradictions.

Infrastructure Integrity

The site is protected by Cloudflare’s CDN/WAF, with observed addresses belonging to CDN edge infrastructure rather than an exposed origin. This reduces direct origin exposure and is a mitigating security control, though it is not by itself proof of legitimacy.

Closing Assessment

Normal browsing, consultation submission, newsletter registration, and other standard site interactions are appropriate within their stated purpose.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about fundeu.es at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
