Full analysis

Overview

The website is a Polish government information portal for European Union funding, presenting national, regional, and cross-border programmes, grant guidance, application resources, events, documents, and public investment outcomes for citizens, organisations, and public bodies.

Scam/Impersonation Risk

No scam, phishing, blacklist, malware, or brand-impersonation contradictions were observed. The homepage presents a coherent public-service purpose, contains no payment or investment mechanism, and shows no suspicious login, hidden-form, wallet, or redirect behavior. Normal interaction with the site is appropriate.

- The homepage identifies the service as the Portal of European Funds and presents government funding programmes, regional schemes, Interreg programmes, and the National Recovery Plan.
- Page analysis found no sensitive forms, hidden forms, wallet activity, suspicious scripts, or brand-impersonation indicators.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist finding.

Regulatory Verification Notes

The site presents as a public-sector information service operated by Poland's Ministry of Funds and Regional Policy rather than a financial or investment provider. Its content concerns public funding information and application guidance, not regulated financial products; no separate financial licence claim is expected from the observed business model. The domain's established registration history, recognised Polish registrar, valid transport encryption, and identifiable hosting support the institutional identity.

- The domain was registered on 2013-07-01 and is approximately 13.09 years old; registrar: NASK.
- The site is served through AS198131, ZETOBI - Centrum Informatyki ZETO S.A., PL.
- TLS is issued by Certum DV TLS G2 R39 CA at DV validation level and is valid through 2027-01-14.
- The homepage provides structured information on EU programmes, applications, documents, events, and public projects.

What to Verify Next

For a formal institutional or procurement decision, confirm the ministry attribution and any applicable administrative contact details through an independently sourced Polish government directory. Where an

- application concerns public funds, validate the relevant programme, call documentation, and submission channel against the governing programme documentation before filing.
- The homepage separates national, regional, Interreg, and recovery-plan funding areas.
 - The portal provides application guidance, programme documents, announcements, events, and project information.
 - The site is classified as a government information portal with an informational, non-payment business model.

Summary Verdict

The website has a high-trust posture consistent with a legitimate, established public-service entity. Its identity, purpose, technical operation, and observed behavior converge without contradictory signals, making standard browsing and ordinary account interaction appropriate.

Infrastructure Integrity

The site benefits from Cloudflare CDN/WAF protection, while the observed edge address is associated with AS198131 and the underlying origin was not observable in this analysis. This is a mitigating infrastructure control, not independent proof of legitimacy.

Closing Assessment

The site is suitable for normal use; formal submissions should follow the portal's published programme documentation and applicable official administrative procedures.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about funduszeuropejskie.gov.pl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
