Full analysis

Overview

Futebolinterior.com.br is a Portuguese-language sports news portal covering Brazilian and international football, including national and state competitions, women's and youth football, club news, match coverage, columns, radio and multimedia. Its apparent business model is editorial publishing supported by advertising, sponsorships and related partnerships rather than financial services or commerce.

Scam/Impersonation Risk

No phishing, impersonation, malicious-content or other contradictory indicators were observed. The homepage presents a coherent editorial structure, links to established social platforms, and no login or sensitive-data form; observed dynamic network activity is consistent with a content site using advertising, analytics and interactive page elements, and no wallet, credential-harvesting, cloaking or clipboard-abuse behavior was detected. The available evidence therefore supports an apparently legitimate, established site, while the real-world operator identity remains likely rather than independently verified.

EVIDENCE

- Domain registration records show registration on 1999-03-31, with an age of 27.39 years.
- The homepage is titled "Futebol Interior | Brasileiro, Feminino, Base e Estaduais" and contains structured football-news navigation, articles and multimedia.
- External reputation checks recorded 0 malicious detections and 0 suspicious detections; the site was also within the global top one million by traffic rank.
- The homepage analysis found no login form, hidden sensitive form, wallet connection, brand-impersonation indicator or phishing indicator.

Regulatory Verification Notes

The site is presented as an editorial sports publication, not as a regulated financial or investment service. No financial licence, registration number or regulated-service claim is evidenced in the supplied content; for this business model, that is a disclosure point to clarify only if the site offers paid, financial or otherwise regulated services beyond its stated publishing activity. The available material is consistent with an established website, but it does not independently prove the legal identity of the operator.

EVIDENCE

- The homepage identifies the service as a sports-news publication covering competitions, teams, scores and radio content.
- The supplied site content contains a contact-page link but does not evidence a financial licence or registration number.
- TLS uses issuer WE1 with DV validation and is valid through 2026-10-25.

What to Verify Next

Before any credential or payment interaction, independently confirm that the contact and commercial terms correspond to the intended publisher, review applicable return or cancellation terms for any paid offering, and use payment methods providing ordinary transaction protection. If the site presents a regulated product or service, confirm the relevant licence directly with the applicable registry rather than relying solely on on-site statements.

EVIDENCE

- The site exposes a dedicated “/contato” contact-page path from the homepage.
- The observed homepage contains no sensitive transaction form, so any future payment or account workflow should be assessed separately.
- The site links to Facebook, Twitter, Instagram, YouTube and TikTok, providing channels that can be cross-checked independently.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture. No scam, impersonation or phishing contradiction was observed, although the operator’s real-world identity is not independently verified.

Infrastructure Integrity

The site is protected by Cloudflare’s CDN/WAF infrastructure and is served through AS13335, operated by Cloudflare, Inc. The observed addresses were CDN edge servers, with no origin-server candidate identified; this reduces direct origin exposure and is a mitigating infrastructure signal, not proof of legitimacy.

Closing Assessment

Normal browsing is proportionate to the observed risk posture, while independent merchant-identity, terms and payment-protection checks should precede credential submission or any paid interaction.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status

LIKELY

Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of futebolinterior.com.br.

- The request stayed on futebolinterior.com.br. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2029-03-31. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about futebolinterior.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
