

# Is galerieantenna.com safe? TrustSniffer's moderate-trust assessment: 50/100

galerieantenna.com

## Verdict

50

OUT OF 100

MODERATE TRUST

galerieantenna.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 75%.

What this site appears to be

Galerieantenna is a single-author editorial blog about beauty photography, aesthetic trends, and creative branding offering guides, picks, and reviews. The content emphasizes tested picks and honest guidance for readers.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

## The page as captured

<https://galerieantenna.com/>

What galerieantenna.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2008.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Overview

Galerieantenna is an informational editorial blog presenting beauty photography, aesthetic trends, and creative-branding guides, picks, reviews, and reader-oriented advice; its apparent business model is content publishing rather than investment, trading, or other transactional services.

### Scam/Impersonation Risk

The site's visible content is consistent with a low-risk editorial blog: the homepage promotes "tested picks," "honest guidance," and "real answers," while technical behavior showed no login form, hidden form, wallet interaction, suspicious script, or external transaction activity. However, this benign presentation is outweighed for trust purposes by multiple malicious detections and a confirmed blacklist status from external reputation assessment. The available evidence does not establish page-level brand impersonation or conflicting legal identities, so the principal concern is reputational risk affecting sensitive interactions rather than a demonstrated impersonation of a named entity. The site's current operator identity also remains independently unverified.

#### EVIDENCE

- The homepage describes an editorial publication focused on beauty photography, aesthetic trends, and creative branding, with no investment or transactional functionality identified.
- Behavioral inspection recorded no login form, hidden form, wallet connection, suspicious inline script, or external network activity.
- External reputation assessment recorded multiple malicious detections and a confirmed blacklist status.
- The domain was registered in 2024 and is 2.08 years old; archival records contain 384 snapshots spanning 2008–2025, with 18 years tracked, indicating historical web presence but not proof that the current operator is the historical operator.

#### Regulatory Verification Notes

The site appears to operate as an editorial publication, not as a regulated financial service. No licence claim or licence number was identified, and the available identity material does not independently connect the site to a verified real-world operator. That is a disclosure and verification gap rather than, by itself, evidence of fraud. A broker-reputation cross-check returned no match, but that contextual result is not a licensing or regulatory determination.

#### EVIDENCE

- The visible navigation includes “Who we are,” “Privacy,” and “Get in touch,” but the supplied page content does not independently verify the responsible legal entity.
- No regulatory authority, registration number, or licence claim is identified in the available site material.
- The site uses a DV TLS certificate issued by WE1, valid to 2026-11-04.
- The transport layer returned a valid certificate, but domain validation confirms control of the domain rather than the identity or regulatory status of its operator.

#### What to Verify Next

Before any sensitive interaction, independently confirm the operator behind the site through an offline or otherwise trusted contact route, and check any claimed business activity against the relevant corporate or regulatory registry. Standard browsing should remain separate from credential submission, payment activity, or reliance on the site for consequential decisions until those checks are complete.

#### EVIDENCE

- The homepage rendered successfully with HTTP 200 status in 2 of 2 observed runs.
- The homepage contained no sensitive form and no login mechanism in the inspected interface.
- The available contact and identity pages should be reviewed for a verifiable legal name and independently corroborated contact details.

#### Summary Verdict

The overall posture is moderate trust with elevated risk for sensitive interactions. The site’s editorial presentation and clean observed browser behavior do not overcome the external reputation contradiction, and legitimacy is therefore apparent only at the content level rather than independently established at the operator level.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN/WAF infrastructure and is served through AS13335, CLOUDFLARENET — Cloudflare, Inc., US. Observed addresses are CDN edge servers, with no origin candidate identified; this reduces direct exposure but is only a mitigating infrastructure characteristic, not proof of legitimacy.

EVIDENCE

- Served from AS13335 (CLOUDFLARENET — Cloudflare, Inc., US).
- Observed edge IP addresses: 104.21.20.224, 172.67.194.182, 2606:4700:3030::6815:14e0, and 2606:4700:3030::ac43:c2b6.
- Cloudflare CDN/WAF protection was identified, with 4 unique edge IPs and 0 likely origin IPs.

Closing Assessment

Passive reading is the proportionate use case at present; credential, payment, and other sensitive actions should await independent confirmation of the site’s operator and purpose.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF\_WHOIS\_PRIVATE
- The registration record withholds contact details for the operator.

Registration and ownership rule:KF\_WHOIS\_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct\_threat

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 25%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of galerieantenna.com.

- The request stayed on galerieantenna.com. It was not redirected to another domain. CLEAR
- Registration is published under DYNADOT LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-07-22. CLEAR
- The earliest public archive of this site is from 2008-01-28. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about galerieantenna.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
