

Is gals-telecom.ru legit? TrustSniffer's high-trust assessment: 90/100

gals-telecom.ru

Verdict

90

OUT OF 100

HIGH TRUST

gals-telecom.ru appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 70%.

What this site appears to be

Corporate site for ООО "Галс-Телеком" (Saratov). Describes telecom services, contact details, news and company information. Contains a contact/lead form to request connection cost estimates.

Evidence status and limitations

Evidence completeness:

UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the corporate site of an apparent regional telecommunications provider, presenting internet access, virtual PBX, IP and conventional telephony, virtual server rental, company information, service announcements, and a contact form for connection-cost enquiries to businesses and individuals.

Scam/Impersonation Risk

No contradictions were observed in the supplied evidence. The site presents a coherent corporate telecommunications purpose, uses a business contact/lead form rather than a login or payment-collection flow, and shows no detected phishing, impersonation, malicious-content, cryptocurrency, wallet, or hidden-form indicators. Its apparent legitimacy is supported by sustained domain and archival continuity, although the real-world operator connection remains independently unverified; the evidence therefore supports an established, apparently legitimate site rather than proving the operator's identity.

EVIDENCE

- Domain registration record: registered with REGRU-RU on 2013-02-21 and recorded as 13.49 years old, expiring on 2027-02-21.
- Web-archive record: 59 snapshots spanning 2015–2025, with 11 years tracked and a maximum recorded gap of 2 years.
- Homepage and service pages: corporate telecommunications content with no reported phishing, brand-impersonation, crypto, or other red-flag indicators.
- External reputation observations: 0 malicious detections, 0 suspicious detections, no phishing-service hit, and traffic rank 18514 within the top 1 million.

Regulatory Verification Notes

The legal and identity presentation is materially developed: the site identifies “ООО «Галс-Телеком»” and provides sections for company information, licenses, personal-data processing, an offer agreement, legal-entity and individual requisites, and operational regulations. The supplied evidence does not independently verify the operator’s identity or establish a regulator-confirmed authorization; the licensing position should therefore be treated as a transparency and verification matter, not as evidence of wrongdoing. The site’s business model is ordinary telecommunications provision through subscriptions, connection fees, and contractual services, and no broker-dataset match was identified.

EVIDENCE

- About, legal, and requisites pages: identify ООО «Галс-Телеком» and provide corporate, contractual, privacy, and regulatory-document sections.
- The site’s transport encryption: TLS certificate issued by YR1, validation level DV, valid to 2026-11-12.
- Hosting telemetry: served from AS203794, Gals-Telecom-AS – LLC Gals-Telecom, RU.
- Domain registration record: registrar REGRU-RU, creation date 2013-02-21T06:24:01Z, expiration date 2027-02-21T07:24:01Z.

What to Verify Next

Before credential or payment interactions, an organisation should independently confirm that the named legal entity corresponds to the intended service provider and that any authorization required for the proposed telecommunications service is current. Contract terms, service-level commitments, cancellation or refund provisions, and payment-protection arrangements should be checked through an independently obtained contact route rather than relying solely on information supplied during an initial web enquiry.

EVIDENCE

- Contact page: provides company contact details and a route/map section suitable for independent cross-checking.
- Contact/lead form: requests connection-cost information and does not present a sensitive credential-collection field.
- Offer, requisites, and regulations pages: provide documents that can be compared with the contracting entity and proposed commercial terms.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated corporate purpose. The conclusion is strong at the website-risk level, while the real-world operator identity remains unverified and should not be treated as independently proven.

Infrastructure Integrity

The site resolves directly to one likely origin address, with no detected CDN or WAF edge layer and no intermediary protective network identified. This is a neutral infrastructure characteristic rather than an indication of maliciousness; the resolved hosting environment is attributable to Gals-Telecom-AS – LLC Gals-Telecom, RU.

Closing Assessment

Ordinary browsing and service research are proportionate, but independent merchant-identity, contractual, and payment-protection checks should be completed before credentials or funds are provided.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gals-telecom.ru.

- The request stayed on gals-telecom.ru. It was not redirected to another domain. CLEAR
- Registration is published under REGRU-RU. CLEAR
- DNS for this domain is served by 54.130, across 2 name servers. NOTED
- The registration is paid up to 2027-02-21. NOTED
- The earliest public archive of this site is from 2015-10-19. CLEAR
- It is hosted on Gals-Telecom-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gals-telecom.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
