

Is gammaomegachapter.org safe? TrustSniffer's low-trust assessment: 40/100

gammaomegachapter.org

Verdict

40

OUT OF 100

LOW TRUST

gammaomegachapter.org is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 45%.

What this site appears to be

Site for the Gamma Omega chapter of Omega Psi Phi Fraternity; provides about, members, events, gallery, resources, and promotion for a 100th centennial. Contains links to music services and event ticketing instructions; no financial-investment or credential-collection mechanisms visible.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What gammaomegachapter.org served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is the Gamma Omega Chapter website for Omega Psi Phi Fraternity, Inc., presenting chapter information, member and committee material, events, gallery content, resources, music links, and promotion for a 100th-centennial program; its apparent purpose is community communication, event promotion, and related fundraising or ticketing.

Scam/Impersonation Risk

The site's visible content is consistent with an informational fraternity chapter rather than a credential-harvesting or investment operation. The homepage presents chapter information, event material, and links to Spotify, Deezer, SoundCloud, and Apple Music; technical interaction testing found no login form, sensitive form, wallet connection, hidden form, or suspicious script behavior. However, this benign page presentation is outweighed by a **confirmed external blacklisting signal** and two malicious detections from external reputation assessment. No identity impersonation, phishing mechanism, or conflicting legal-entity names were observed, and historical material does not indicate suspicious repurposing or semantic drift; nevertheless, the external detections create a material risk for sensitive interactions.

EVIDENCE

- External reputation assessment recorded 2 malicious detections and a confirmed blacklist signal; no Google Safe Browsing malicious result was recorded.
- The homepage contains no login form, sensitive form, hidden form, wallet connection, or external password submission.
- Domain registration record: created 2015-08-11T23:09:06Z; age 11.04 years; registrar GoDaddy.com, LLC; expiry 2027-08-11T23:09:06Z.
- Historical archive record: 49 snapshots from 2016-01-09T21:25:09Z through 2026-05-20T07:14:54Z, spanning 11 tracked years; no suspicious repurposing was identified.

Regulatory Verification Notes

The public-facing material names the Gamma Omega Chapter and Omega Psi Phi Fraternity, Inc., but the connection between the website and an independently verified real-world operator remains unverified. The site's disclosure state is unclear, and no license authority or license number is claimed in the available business-model record; for a community organization this may be appropriate to its stated purpose, but it leaves the legal recipient of any donation, ticket payment, or merchandise transaction insufficiently established. The external broker-intelligence dataset contained no matching broker record, which is contextual only and does not establish affiliation, licensing, or regulatory standing. Technical controls provide ordinary transport and hosting facts, not proof of organizational legitimacy.

EVIDENCE

- The About and homepage content identifies "Gamma Omega Chapter" of "the Omega Psi Phi Fraternity, Inc." but does not independently establish the operator's legal identity.
- The site's hosting record shows AS26347, DREAMHOST-AS - New Dream Network, LLC, US.
- The site's TLS certificate is issued by YR1, uses DV validation, and is valid to 2026-11-19T00:54:15+00:00.

What to Verify Next

Before any payment or sensitive interaction, independently confirm that the chapter and domain are recognized through an official Omega Psi Phi contact route or another offline channel, rather than relying solely on contact details presented on the site. For event-related transactions, confirm the named payment recipient, obtain a receipt, and use payment protections that permit dispute or reversal. If a donation or merchandise purchase is proposed, verify the beneficiary and refund terms separately. Any applicable charitable, fundraising, or payment registration should be checked with the relevant jurisdictional authority.

EVIDENCE

- The centennial event material instructs visitors to obtain tickets through a chapter member; that route should be authenticated independently before payment.
- The site includes Contact Us, Resources, FAQ, and event-related pages, providing specific locations against which affiliation and transaction details can be cross-checked.
- The site presents external music-service links, which can be used only as corroborating public presence and not as proof of chapter ownership or authorization.

Summary Verdict

The overall posture is **low trust with elevated risk for sensitive interactions**. The site presents a coherent community-organization profile and no visible credential-harvesting mechanism, but the confirmed reputation contradiction and unverified operator connection prevent a reliable legitimacy conclusion.

Infrastructure Integrity

The available infrastructure evidence identifies conventional DreamHost hosting and valid domain-validated TLS, but it does not provide a basis to treat hosting protections as a mitigating trust control. Infrastructure integrity therefore does not offset the external reputation concern.

Closing Assessment

Restrict activity to passive review until the chapter affiliation, transaction recipient, and independent contact route have been confirmed; sensitive account, credential, donation, or payment activity should not proceed beforehand.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gammaomegachapter.org.

- The request stayed on gammaomegachapter.org. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dreamhost.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-11. NOTED
- The earliest public archive of this site is from 2016-01-09. CLEAR
- It is hosted on DREAMHOST-AS, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gammaomegachapter.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
