

Is ganaderiaelrosarito.mx a scam? TrustSniffer's high-risk assessment: 0/100

ganaderiaelrosarito.mx

Verdict

0

OUT OF 100

CRITICAL RISK

ganaderiaelrosarito.mx shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Contact page for 'El Rosarito' livestock/genetics farm. Shows phone number, postal/location info, and an email address. Presents basic corporate information and a tagline about adapted genetic livestock.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://ganaderiaelrosarito.mx/>

What ganaderiaelrosarito.mx served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents El Rosarito as a local livestock and genetics farm focused on breeding services and agricultural products, with a business model based on direct contact, agricultural sales, and business-to-business or consumer relationships rather than online payments.

Scam/Impersonation Risk

The site's visible content is consistent with a small agricultural business and does not show a login form, sensitive data form, wallet connection, payment flow, or obvious phishing mechanics. However, this benign presentation is outweighed by serious external reputation contradictions: the domain is confirmed as blacklisted, and multiple security services recorded malicious or suspicious detections. No distinct conflicting legal-entity names or direct brand-impersonation indicators were observed, but the external detections create a material risk for credential, financial, or other sensitive interaction.

EVIDENCE

- The homepage and contact presentation identify a livestock/genetics business and contain no login or sensitive-submission form.
- External reputation assessment recorded 14 malicious detections and 1 suspicious detection from 20 evaluated results.
- The domain was identified on a confirmed blacklist, with three security providers contributing threat detections.

Regulatory Verification Notes

The available page provides basic business context and contact details but does not state a license, registration number, licensing authority, or independently verifiable legal-entity identity. This is a regulatory and disclosure gap rather than standalone proof of fraud. The domain is long-established and registered through GoDaddy.com, while its transport security uses a valid but domain-validated certificate; these are positive technical or administrative signals, but they do not overcome the external threat findings or independently verify the operator.

EVIDENCE

- The contact page describes local livestock and adapted genetic breeding services but does not disclose a license number or licensing authority.
- Domain registration: 2017-08-29; age 8.98 years; registrar GoDaddy.com.
- TLS certificate: issuer YR2; validation level DV; valid through 2026-10-06.
- The page supplies a business description and contact/location information but no independently verified corporate identity or regulatory credentials.

What to Verify Next

Before any sensitive interaction, an independent party should confirm that the farm's legal identity, physical operations, and applicable agricultural or commercial registrations correspond to the website. Any proposed payment, document exchange, account creation, or credential request should be validated through an independently sourced channel and protected by appropriate payment and transaction controls.

EVIDENCE

- Confirm applicable licensing or registration directly with the relevant government or industry registry rather than relying solely on the website.
- Validate the business and contact channels through an independent offline or registry-based source before initiating a transaction.
- Conduct a separate endpoint and file-safety review before downloading documents or sharing credentials or financial information.

Summary Verdict

The website has a **critical trust posture** because confirmed blacklist status and multiple malicious detections materially contradict its otherwise ordinary local-business presentation. Its apparent agricultural purpose is not

sufficient to establish that sensitive interaction with the site or its operator is trustworthy.

Infrastructure Integrity

The site resolves directly to infrastructure associated with InMotion Hosting, Inc. in the United States, using AS22611, with one identified IP and no detected CDN or WAF edge layer. The valid DV TLS certificate provides transport encryption, but the hosting arrangement and certificate are infrastructure protections only and do not establish legitimacy.

Closing Assessment

Prospective users should restrict activity to non-sensitive viewing and should not log in, submit credentials, or conduct financial transactions unless the operator and transaction channel have been independently validated.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ganaderiaelrosarito.mx.

- The request stayed on ganaderiaelrosarito.mx. It was not redirected to another domain. [CLEAR](#)

- Registration is published under GoDaddy.com. CLEAR
- DNS for this domain is served by inmotionhosting.com, across 2 name servers. NOTED
- The registration is paid up to 2026-08-29. NOTED
- The earliest public archive of this site is from 2020-05-15. CLEAR
- It is hosted on INMOTION, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ganaderiaelrosarito.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
