

Is gavitourism.com legit? TrustSniffer's high-trust assessment: 75/100

gavitourism.com

Verdict

75
OUT OF 100

HIGH TRUST

gavitourism.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Local travel operator site 'Green Forest Tours' offering packages and bungalow stays near Gavi, Kerala. Provides phone numbers, email, address, package descriptions, FAQs, and a contact form. No investment or credential-harvesting indicators present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Green Forest Tours is a local tourism and accommodation website presenting Gavi, Kerala travel packages, forest bungalow stays, room and service information, destination guidance, and booking/contact options for visitors travelling from Pathanamthitta.

Scam/Impersonation Risk

No contradictions were observed. The homepage and booking materials describe a coherent direct-tourism business rather than an investment, cryptocurrency, credential-harvesting, or impersonation operation. The site identifies Green Forest Tours, provides a physical address and telephone contacts, describes the Gavi route and required entry permit, and links to established social and mapping platforms. Available external reputation checks recorded no malicious or suspicious detections, and no broker-name match or brand-impersonation indicator was present. The operator's real-world identity remains likely rather than independently verified, so the website's apparent legitimacy should not be treated as proof of the underlying legal entity.

EVIDENCE

- The homepage identifies “Green Forest Tours,” Pathanamthitta, Kerala, and describes colonial-bungalow accommodation and travel to Gavi.
- The rooms, services, and booking pages present accommodation and tour-booking functionality without login, password, wallet, or investment forms.
- The site's external reputation observations recorded zero malicious detections, zero suspicious detections, and zero abuse reports for the observed CDN address.
- The domain registration record shows registration on 2025-03-18, with an age of approximately 1.42 years; archival records extend from 2010-07-28 to 2025-07-11, representing 16 years tracked, while the archive summary reports 0 snapshots.

Regulatory Verification Notes

The available content is consistent with a small commercial travel operator selling packages and accommodation. The contact page and booking flow provide practical customer-facing information, but the supplied site content does not present a legal entity name beyond the trading name, a registration number, or a tourism licence number. That is a disclosure and verification item rather than evidence of a scam. No third-party regulated status was established, and the available broker-reputation context contained no match. The site's substantive destination, accommodation, FAQ, and contact content supports a genuine operating purpose, although the operator's legal identity is not independently verified.

EVIDENCE

- The contact page provides a physical address in Pathanamthitta, Kerala, telephone numbers, an email contact, and a contact form.
- The homepage and FAQ content explain the Gavi entry-permit requirement, route conditions, accommodation arrangements, and guest support.
- The site's transport encryption uses a DV certificate issued by WE1, valid through 2026-11-06.
- The domain registrar is GoDaddy.com, LLC; the recorded registration period runs from 2025-03-18 to 2027-03-18.

What to Verify Next

Before credential or payment interactions, an interested customer should independently confirm the merchant's legal identity, booking terms, cancellation and refund conditions, and the payment provider's protection and dispute process. Booking details and any required Gavi access permits should be confirmed through an official or independently sourced local authority or tourism channel rather than relying solely on the website. Official contact channels should also be cross-checked through an independent route before making a material payment.

EVIDENCE

- The booking page provides the commercial transaction path for tour and accommodation reservations.
- The rooms and services pages contain the underlying accommodation and package descriptions that should be matched against the final booking confirmation.
- The contact page supplies the details that can be cross-checked independently before payment or travel arrangements.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust and low-risk posture. No phishing, impersonation, blacklist, or other contradictory signal was observed. The site should be regarded as legitimate in appearance, while the real-world operator identity remains unproven.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and all observed addresses were CDN edge addresses rather than direct origin addresses. This reduces routine exposure of the hosting origin and is a positive defensive measure, but it is a mitigating infrastructure signal rather than proof of the operator's legitimacy.

EVIDENCE

- Served from AS13335, Cloudflare, Inc., United States.
- Four observed addresses were identified as Cloudflare edge infrastructure, with zero likely origin addresses.
- The resolved hosting infrastructure was recorded through ARIN and identified as Cloudflare CDN/WAF protection.

Closing Assessment

Ordinary browsing and booking research are proportionate to the assessed posture; before submitting credentials or payment details, standard independent checks of merchant identity, transaction terms, and payment protection should be completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	39%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gavitourism.com.

- The request stayed on gavitourism.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by digitalocean.com, across 3 name servers. NOTED
- The registration is paid up to 2027-03-18. NOTED
- The earliest public archive of this site is from 2010-07-28. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gavitourism.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
