

Is gekiyasu-dvdshop.jp legit? TrustSniffer's high-trust assessment: 100/100

gekiyasu-dvdshop.jp

Verdict

100

OUT OF 100

HIGH TRUST

gekiyasu-dvdshop.jp appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 75%.

What this site appears to be

Japanese ecommerce homepage for GDS, a specialist retailer of gravure-idol and adult-oriented DVDs and Blu-rays. It presents a large product catalog, rankings, discounts, shipping terms, multiple payment methods, customer-service resources, and links to legal and privacy information.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established Japanese e-commerce storefront operated under the GDS name, offering new, discounted, and discontinued gravure-idol and adult-oriented DVDs and Blu-rays through direct merchandise sales, with catalog rankings, shipping information, customer-service resources, and BitCash, bank-transfer, and cash-on-delivery payment options.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, deceptive financial-return claims, or confirmed malicious activity were observed. The domain has a long operating history with substantial archival continuity, while the current homepage presents a coherent retail catalog rather than a parked, redirected, or materially repurposed property. Observed browser activity was also consistent with ordinary storefront behavior: no cloaking, hidden forms, credential forwarding, clipboard manipulation, suspicious inline scripts, or wallet-related functionality was detected.

- Domain-registration records show that the site was registered on 18 May 2009 and is approximately 17.21 years old.
- Historical records contain 285 archive snapshots spanning 24 September 2009 to 20 May 2026, covering 18 tracked years without detected semantic repurposing.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no search-browser safety alert, no abuse reports, and no signature matches for the domain or its hosting address.
- The homepage analysis found no sensitive form, untrusted form destination, hidden form, or suspected brand impersonation.

Regulatory Verification Notes

The homepage links visitors to statutory-commerce, privacy, customer-support, and distribution-policy material. It states that merchandise is sourced through authorized distribution, that unauthorized or self-produced products are excluded, that removal requests are handled promptly, and that age restrictions are applied in accordance with law. The supplied material does not establish the precise merchant identity and contact particulars contained on the statutory-commerce page; this is a limited disclosure-verification point, not evidence of fraud. No broker-regulation record was matched, but such regulation is not ordinarily relevant to this physical-media retail model.

- The homepage links to legal and privacy information and identifies a statutory-commerce disclosure among its customer resources.

- The published handling policy states that only authorized-distribution products are sold and that age restrictions are observed.
- The homepage advertises free first-piece Yu-Mail shipping for orders of at least ¥1,000 and discounts exceeding 90% on selected merchandise.
- The supplied page content makes no claim of a financial-services license or broker authorization.

What to Verify Next

Before a first purchase, the merchant name, address, telephone number, returns process, delivery terms, and any age-eligibility conditions should be checked on the statutory-commerce and policy pages. Buyers should also confirm the official customer-service channel independently and retain the order confirmation, product description, and payment record, particularly when using bank transfer or BitCash because recovery options may differ from cash on delivery.

- The storefront includes customer-service resources and links to terms governing shipping, payment, privacy, and lawful product handling.
- The catalog contains adult-oriented material alongside gravure-idol titles, making the published age-access and eligibility terms relevant to transaction review.

Summary Verdict

The site is a legitimate, established, and trustworthy specialist retailer. Its durable provenance, coherent commercial presentation, clean threat reputation, and benign observed behavior converge strongly in support of normal interaction, including account login and standard purchases.

Infrastructure Integrity

The site resolves directly to a likely origin address in Japan without a CDN or WAF layer. Direct origin visibility is a conventional hosting configuration rather than an adverse trust signal, although it provides less edge-layer shielding against availability attacks.

- The site is served from AS24282 by KIR – KAGOYA JAPAN Inc., JP, at the observed address 133.18.101.157.
- Transport encryption uses a DV certificate issued by Sectigo Public Server Authentication CA DV R36, valid until 14 December 2026.
- Infrastructure resolution identified one IP address, no edge addresses, and one likely origin address.

Closing Assessment

Normal browsing, account access, and ordinary purchases are appropriate, subject to standard e-commerce precautions and review of the applicable transaction terms before payment.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
--------	------------

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gekiyasu-dvdshop.jp.

- The request stayed on gekiyasu-dvdshop.jp. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by kagoya.net, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-05-31. [NOTED](#)
- The earliest public archive of this site is from 2009-09-24. [CLEAR](#)
- It is hosted on KIR, from a server in JP. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gekiyasu-dvdshop.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
