

Is gemini.net.au a scam? TrustSniffer's high-risk assessment: 0/100

gemini.net.au

Verdict

0

OUT OF 100

CRITICAL RISK

gemini.net.au shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A minimal, dated corporate page for 'Gemini Management' listing IT and web services (systems, maintenance, networking, web design, hosting, domain/email). Includes contact prompt and copyright 2000; no forms or ecommerce visible.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://gemini.net.au/>

What gemini.net.au served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Public web-archive history exists since 1998.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Security Alert

Kaspersky flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a minimal corporate services site presented under the name “Gemini Management.” It describes computer systems, system maintenance, networking, professional web design, internet hosting, domain and email services, and e-commerce support, with an informational business model that appears to rely on service contracts and hosting-related fees rather than on-site transactions.

Scam/Impersonation Risk

A material contradiction exists between the site’s benign, informational presentation and external threat intelligence. Sixteen evaluated detections classified the domain as malicious, including a Tier 1 detection from Kaspersky, and the domain is recorded as **blacklisted** by the cited external sources. Google Safe Browsing did not classify it as malicious, and the reviewed homepage contains no visible login, payment, download, or investment mechanism; those observations do not resolve the stronger malicious-detection signal. No conflicting legal-entity names or explicit brand-impersonation indicators were observed in the supplied page content, but the external detections are sufficient to require a security-forward posture for sensitive interaction.

EVIDENCE

- External reputation assessment recorded 16 malicious detections, including Kaspersky, and an external blacklist hit.
- The homepage identifies “Gemini Management” and lists IT, hosting, web-design, domain, email, and e-commerce services without showing a transaction flow.
- Behavioral testing recorded no external requests, no hidden forms, no password forms, and no wallet-related activity.

Regulatory Verification Notes

The available page content does not establish a verified real-world operator identity. The homepage provides the name “Gemini Management” and a copyright notice dated 2000, while the registration record names ASPECT CO PTY LTD as the owner and Domain Directors Pty Ltd trading as Instra as registrar; the evidence does not independently connect those records to the business presented on the page. No licensing authority or registration number is disclosed in the supplied site content. This is a regulatory and transparency verification gap rather than, by itself, proof of misconduct. The site’s minimal content and absence of substantive legal or service documentation limit confidence in its business disclosures.

EVIDENCE

- Registration record: owner listed as ASPECT CO PTY LTD; registrar listed as Domain Directors Pty Ltd trading as Instra.
- TLS certificate: issuer YR1, Domain Validation (DV), valid to 2026-10-10T12:18:27+00:00.
- The supplied homepage content contains 219 characters of substantive text and no stated licensing authority or license number.

What to Verify Next

Before any engagement, an independent party should confirm that Gemini Management is legally connected to ASPECT CO PTY LTD and obtain a formal service agreement identifying the contracting entity, address, liability terms, and dispute process. Any licensing or registration requirement applicable to the proposed service should be checked directly with the relevant Australian registry rather than relying on the website. Sensitive interaction should remain suspended until the external malicious and blacklist findings are resolved through an independent security review.

EVIDENCE

- The homepage presents a “Contact Us” prompt but no visible submission form or authenticated account area.
- Testing completed two successful runs with zero external XMLHttpRequest or fetch activity.
- The supplied regulatory context records the site’s real-world identity as unverified.

Summary Verdict

The overall posture is critical, with sensitive interaction risk driven by a confirmed external reputation contradiction and unresolved operator identity. The site’s limited corporate presentation is not sufficient to

support trust for credentials, account access, payments, or other consequential activity.

Infrastructure Integrity

The site resolves directly to infrastructure operated by Instra Corporation Pty Ltd in Australia, with no detected CDN or WAF layer and one likely origin address. This provides a clear hosting path but offers no protective infrastructure signal capable of offsetting the external reputation concern.

EVIDENCE

- Hosted on AS133104 (INSTRACORPORATION-AS-AP — Instra Corporation Pty Ltd, AU), resolving to 103.152.248.205.
- Infrastructure analysis recorded one unique IP, zero edge IPs, one likely origin IP, and no detected CDN.

Closing Assessment

The appropriate enterprise posture is to avoid login, credential submission, downloads, payments, and other sensitive activity until the domain’s reputation findings and operator relationship have been independently cleared.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gemini.net.au.

- The request stayed on gemini.net.au. It was not redirected to another domain. CLEAR
- Registration is published under Domain Directors Pty Ltd trading as Instra. CLEAR
- DNS for this domain is served by ezyreg.com, across 2 name servers. NOTED
- The earliest public archive of this site is from 1998-12-06. CLEAR
- It is hosted on INSTRACORPORATION-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gemini.net.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
