

Is genxshops.com safe? TrustSniffer's low-trust assessment: 40/100

genxshops.com

Verdict

40

OUT OF 100

LOW TRUST

genxshops.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Ecommerce storefront for generators and related equipment. Product listings with prices, contact email and physical address provided. Standard shop pages like About, Contact, Shipping, Returns present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://www.genxshops.com/

What genxshops.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2006.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is an online ecommerce storefront for generators and related industrial and home power equipment, presenting petrol, diesel, gas, inverter, hydro-power, electrical accessories, tools, product pricing, and wholesale purchasing options to prospective buyers.

Scam/Impersonation Risk

The site presents a conventional retail catalogue, and page analysis identified no brand-impersonation or identity-inconsistency indicators. However, the domain carries a material external threat signal: four evaluated detections classified it as malicious, and it is blacklisted by two external sources. This contradiction outweighs the otherwise ordinary storefront presentation. Runtime analysis also observed one suspicious inline script and substantial post-interaction DOM change, which increases concern about content or page behavior changing after visitor interaction. The contact page contains the published address "info@genxshops.come," an invalid contact-channel suffix that may represent a deliverability-breaking typo or a possible typosquat. Sensitive interaction should therefore be treated as unsafe pending independent confirmation.

EVIDENCE

- External reputation assessment recorded 4 malicious detections and confirmed blacklist status from two sources.
- Browser testing observed 1 suspicious inline script, 1,589 maximum DOM mutations, and a maximum post-interaction DOM difference of 1,589.
- Registration telemetry records creation on 2025-09-04 and an age of 0.96 years; archival telemetry records 0 snapshots, with first seen 2006-02-03 and last seen 2026-06-10 across 21 tracked years.

Regulatory Verification Notes

The homepage and associated About, Contact, Shipping, and Returns pages describe a standard retail operation and provide product, pricing, contact, and address information. The reviewed content does not present a licensing claim or license number; for an equipment retailer this is a disclosure and seller-verification issue rather than proof of fraud. The operating entity is not independently verified by the available evidence, so the on-page address and business claims should not be treated as proof of the real-world operator. No matching broker record was identified in the available third-party context.

EVIDENCE

- The homepage identifies the business model as retail and wholesale sales of generators and related equipment.
- The About, Contact, Shipping, and Returns pages are present, but no licensing authority or license number is presented in the reviewed content.
- Hosting telemetry shows AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- The site uses a Domain Validated TLS certificate issued by WE1, valid through 2026-09-24T11:17:51+00:00.

What to Verify Next

Before any purchase or account-related interaction, an independent party should confirm the seller's legal name, physical address, telephone contact, inventory availability, and return arrangements using records or contact routes not supplied solely by the website. Any applicable business-registration or product-distribution requirements should be checked with the relevant jurisdictional registry. Payment should be limited to a method providing strong dispute and chargeback protection, and credentials should not be reused from other services. A controlled technical review should also confirm that page content remains stable after ordinary interaction.

EVIDENCE

- The storefront provides product listings and prices but does not independently establish the operator's legal identity.
- Two successful browser runs recorded no external XHR activity, no hidden forms, and no password-external forms.
- The site's page behavior nevertheless recorded a suspicious inline script and substantial DOM changes after interaction.

Summary Verdict

The overall posture is **low trust with sensitive-interaction risk**. The conventional retail presentation does not offset the confirmed external threat detections and the unresolved connection between the storefront and a verified real-world operator.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer against direct exposure of the hosting environment, with observed addresses limited to Cloudflare edge infrastructure and no origin candidate identified. This protective architecture supports transport and perimeter resilience but does not establish that the retailer itself is legitimate.

Closing Assessment

Prospective users should avoid credentials, payment submission, and other sensitive actions until the seller and transaction safeguards have been independently validated; passive review is the proportionate interim posture.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - The page carried inline scripts written in a style TrustSniffer treats as suspicious.
Behaviour in a sandbox rule:BEHAV_SUSPICIOUS_INLINE_SCRIPTS
 - The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
 - The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.
Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of genxshops.com.

- The request stayed on genxshops.com. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-09-04. NOTED
- The earliest public archive of this site is from 2006-02-03. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about genxshops.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
