Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website presents a local commercial cleaning business serving Minneapolis and St. Paul, Minnesota, offering corporate carpet, upholstery, and fabric-panel cleaning through its “Appearance Management” service model, with consultations generated through telephone and online contact channels.

Scam/Impersonation Risk

The site’s visible content is consistent with a conventional local-service business: it describes commercial cleaning services, provides a business address and telephone contact, and uses a consultation form rather than a login or payment interface. Page analysis found no brand-impersonation or phishing indicators. However, this benign presentation is outweighed by a material external contradiction: the domain is associated with a confirmed blacklist listing and multiple malicious classifications from evaluated external reputation sources. Accordingly, the site should be treated as presenting elevated risk for sensitive interactions, despite its established historical presence and ordinary business content.

EVIDENCE

- External reputation assessment recorded a confirmed blacklist hit and 4 malicious classifications among evaluated detections.
- Domain registration: 2005-01-13T15:41:42Z; age 21.61 years; registrar GoDaddy.com, LLC.
- Web archive: 697 snapshots from 2007-03-20 through 2026-03-04, spanning 20 tracked years, with a maximum gap of 2 years.
- The homepage contains commercial-service content and a consultation form, with no login form, hidden form, or sensitive-data form detected.

Regulatory Verification Notes

The homepage presents Geyen Group, Inc. as a commercial cleaning provider operating from a Minneapolis address, and the stated business model is the sale of cleaning contracts and consultations rather than a financial or investment service. No license authority or license number is claimed in the available material, so the site does not provide a basis for independent regulatory verification; this is a disclosure gap rather than proof of fraudulent activity. The real-world operator identity remains unverified, and the confirmed external reputation issue should be considered separately from the site's commercial-service description.

EVIDENCE

- The homepage identifies the business as Geyen Group, Inc. and describes carpet, upholstery, and fabric-panel cleaning for businesses.
- No licensing authority or license number is disclosed in the available business content.
- Hosting infrastructure: AS22611, InMotion Hosting, Inc., US.
- TLS certificate: issuer YR2, domain-validated (DV), valid to 2026-10-14T18:40:40+00:00.

What to Verify Next

Before any contract, payment, or exchange of business-sensitive information, the proposed contracting entity and operating address should be confirmed through an independently sourced business record or offline channel. Any applicable local business requirements should also be checked with the relevant authority, and contractual terms, service scope, cancellation provisions, and payment protections should be obtained in writing. Given the external reputation contradiction, sensitive information should not be submitted until those checks are complete.

EVIDENCE

- Independent confirmation should be based on records and contact details obtained outside the website itself.
- Regulatory applicability should be checked against the jurisdiction governing the proposed cleaning services.
- The website's visible business model is consultation-led commercial service contracting, making entity and contract validation the appropriate next verification focus.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site's established domain history and plausible local-business presentation do not neutralize the confirmed external reputation contradiction, and the operator's real-world identity has not been independently verified.

Infrastructure Integrity

The site resolves directly to a single apparent origin address rather than a detected CDN edge, with no CDN provider identified. Its hosting environment is attributable to InMotion Hosting, Inc.; this provides a concrete technical hosting context but should be treated only as limited infrastructure context, not as evidence of legitimacy.

Closing Assessment

Restrict activity to non-sensitive review until independent business and reputation checks are satisfactorily completed; credentials, confidential information, and financial details should not be submitted in the interim.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of geyengroup.com.

- The request stayed on geyengroup.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-13. NOTED
- The earliest public archive of this site is from 2007-03-20. CLEAR
- It is hosted on INMOTION, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about geyengroup.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
