Full analysis

Overview

The Ghanaian Times is a Ghana-focused news and newspaper portal presenting national and international reporting across politics, business, sports, crime, education, culture, technology, and lifestyle, while supporting advertising, newspaper delivery, digital subscriptions, and archive access.

Scam/Impersonation Risk

No contradictions were observed across the supplied evidence. The homepage presents a coherent editorial-news purpose, includes ordinary navigation and social channels, and shows no phishing, credential-harvesting, deceptive financial, or brand-impersonation indicators. The site's normal publishing and subscription model is consistent with its stated identity.

EVIDENCE

- The homepage identifies Ghanaian Times as a news portal covering politics, business, sports, crime, education, culture, technology, and international news.
- Page analysis found no login form, hidden sensitive form, wallet interaction, credential-harvesting behavior, or brand-impersonation signal.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist result.

Regulatory Verification Notes

The site appears to operate as a media publisher rather than a regulated financial service. No specific license or registration claim was identified in the supplied page evidence; this is a limited disclosure point for institutional due diligence, not an indication of fraud. Ownership records identify NEW TIMES CORPORATION, with Ghana Dot Com as registrar, while the broader evidence shows a long-established, continuously observed domain and an established publishing footprint.

EVIDENCE

- Domain registration: 2014-02-24; age 12.44 years; expiry 2027-02-20; registrar Ghana Dot Com; organization NEW TIMES CORPORATION.
- Web archives contain 5,000 snapshots spanning 2014-05-24 to 2025-12-12, covering 12 tracked years.
- Hosted on AS47583 (AS-HOSTINGER - Hostinger International Limited, CY).
- TLS certificate issued by YE1 with DV validation, valid to 2026-09-29T11:20:02+00:00.

What to Verify Next

For formal procurement or payment arrangements, confirm the publisher's corporate details and any applicable media or subscription obligations through authoritative Ghanaian records, and independently confirm official contact and payment channels before establishing a contractual relationship.

EVIDENCE

- The homepage provides a Contact Us route and identifies newspaper delivery, subscriptions, and archive services.
- The site presents an established editorial operation with broad topic coverage and active dated news content.
- No specific licensing claim or license number was identified in the supplied page evidence.

Summary Verdict

The site presents as a legitimate, established, and trustworthy news publisher with a coherent business model and no observed scam or impersonation contradictions. Normal interaction, including account login and standard subscription use, is appropriate.

Infrastructure Integrity

The hosting environment uses shared content-delivery infrastructure associated with Hostinger, which can reduce direct origin exposure and provides a mitigating operational layer. This infrastructure supports, but does not independently establish, the site's legitimacy.

Closing Assessment

Standard browsing, account interaction, and subscription activity are proportionate to the site's established trust posture; formal counterparties should complete their usual corporate and contractual checks.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ghanaiantimes.com.gh at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
