

# Is girlscanlead.co safe? TrustSniffer's moderate-trust assessment: 65/100

girlscanlead.co

## Verdict

65

OUT OF 100

MODERATE TRUST

girlscanlead.co is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

### WHAT THIS SITE APPEARS TO BE

Website for 'Girls Can Lead' (Yayasan Perempuan Memimpin Indonesia) promoting leadership training, mentorship and education for girls across Indonesia and the region; calls to donate, volunteer and partner with contact email and registration claim included.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

## The page as captured

<https://girlscanlead.co/>

What girlscanlead.co served when TrustSniffer captured it on 2026-08-21. The page may look different now.

## Key findings

- Automated classification: Governance Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2025.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

## Full analysis

### Overview

Girls Can Lead is an Indonesian nonprofit foundation website presenting leadership training, mentorship, education, community initiatives, impact stories, and opportunities to donate, volunteer, and partner in support of girls and young women across Indonesia and Southeast Asia.

### Scam/Impersonation Risk

No phishing, impersonation, malicious-content, blacklist, or identity-contradiction indicators were observed. The site's homepage presents a coherent nonprofit purpose, describes education, mentorship, and leadership programs, and does not promise financial returns. A shared-infrastructure reputation signal exists because several abuse reports are associated with an IP used in content-delivery infrastructure; the attribution is to shared provider infrastructure rather than specifically to this website, so it is a contextual signal and not evidence of site-level abuse.

#### EVIDENCE

- The homepage identifies “Girls Can Lead” and “Yayasan Perempuan Memimpin Indonesia,” describes its mission to equip girls with leadership skills, and provides donation, volunteer, mentor, and partner calls to action.
- The site's observed behavior showed no login form, hidden form, wallet connection, clipboard activity, credential collection, cloaking, or sensitive external form submission.
- The shared-infrastructure reputation record contains 9 abuse reports for IP address 198.202.211.1, with attribution marked as shared infrastructure and usage type recorded as Content Delivery Network.
- The domain was registered on 2025-08-25 and is 0.99 years old; archive records show 3 snapshots across 2 years, with records from 2025-12-05 through 2026-03-13.

#### Regulatory Verification Notes

The website presents the organization as a registered foundation and includes a registration claim, but the supplied evidence does not independently verify the underlying legal entity or registration details. This is a transparency and verification gap rather than evidence of a scam. The domain is registered through Hosting Concepts B.V. d/b/a Registrar.eu, and its transport encryption is valid, although domain-validated TLS confirms encrypted communication rather than organizational identity. The available evidence therefore supports an apparently coherent nonprofit presentation while leaving real-world ownership and registration independently unverified.

#### EVIDENCE

- The homepage and organizational content identify the foundation as “Yayasan Perempuan Memimpin Indonesia” and describe its nonprofit program model.
- The domain registrar is Hosting Concepts B.V. d/b/a Registrar.eu; registration runs from 2025-08-25 to 2028-08-25.
- TLS is issued by WE1 using Domain Validation and is valid through 2026-10-05.
- The site contains one contact/newsletter/donation-oriented form and no sensitive form destination was observed.

#### What to Verify Next

Before a substantial donation, formal partnership, or submission of sensitive organizational information, the foundation's registration claim should be matched against the relevant Indonesian registry and the intended payment beneficiary should be confirmed as the same legal entity. Contact details and partnership representations should also be confirmed through an independently sourced channel, and any donation processor should be checked for clear beneficiary, receipt, refund, and data-handling information.

## EVIDENCE

- The site's registration claim is the stated basis for the organization's legal status but is not independently verified in the supplied evidence.
- The homepage identifies regional collaborative partners and program activity, providing specific representations that can be confirmed through independent partner channels.
- The site's stated funding model is based on donations, volunteering, partnerships, and program delivery rather than promised investment returns.

## Summary Verdict

The website presents a coherent, low-content-risk nonprofit profile and has no observed contradictions or active threat indicators. Overall trust posture is moderate: the available evidence is consistent with a legitimate organization, but confidence is limited because the real-world operator and governance details are not independently verified.

## Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure and resolves through an edge-only presentation, with no origin server observed. This reduces direct exposure of the hosting environment and is a mitigating control, but protective infrastructure alone does not establish organizational legitimacy.

## Closing Assessment

Ordinary informational use is proportionate, while high-value donations, formal engagements, and sensitive submissions should follow the independent registration, beneficiary, and contact-channel checks outlined above.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

## What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

### 01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF\_WHOIS\_INCOMPLETE

### 02 Dynamic Interaction Caution

- Most of what the page loaded came from other domains rather than from this one.

Behaviour in a sandbox rule:BEHAV\_EXTERNAL\_RATIO\_HIGH

## Signals weighed against the site

- AbuseIPDB: 9 reports on hosting IP 198.202.211.1 (Webflow, Inc, Content Delivery Network), 33% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

## Identity verification

Status

UNVERIFIED

|                                  |        |
|----------------------------------|--------|
| Identity score                   | 30/100 |
| Identity verification confidence | 50%    |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

### What TrustSniffer observed

First-party facts recorded during the assessment of girlscanlead.co.

- The request stayed on girlscanlead.co. It was not redirected to another domain. CLEAR
- Registration is published under Hosting Concepts B.V. d/b/a Registrar.eu. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2028-08-25. CLEAR
- The earliest public archive of this site is from 2025-12-05. CLEAR
- It is hosted on CLOUDFLARESPECTRUM, from a server in US. NOTED

### About this assessment

A trust score summarises the evidence TrustSniffer could collect about girlscanlead.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
