Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This is the website of Dr. Giuseppe Calligaris, presenting a biography, medical and holistic services, projects, news, and Milan office contact details; its apparent business model is to attract clients for professional consultations and appointments.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent practitioner-focused purpose, publishes contact and office information, and shows no login prompts, payment flows, credential-harvesting forms, wallet-connect behavior, or brand-impersonation indicators. Available external checks also found no malicious or blacklist indicators. The operator's real-world identity remains likely rather than independently verified, so the site should be described as apparently legitimate rather than identity-proven.

EVIDENCE

- The homepage identifies the site with the Calligaris name and presents biography, services, projects, news, and Milan contact information.
- The site's form and behavior analysis recorded zero forms, no sensitive form, no login form, no hidden forms, and no wallet or credential-drainer activity.
- External reputation checks recorded no malicious detections, no Google Safe Browsing malicious flag, no external blacklist match, and zero abuse reports.
- The historical record contains 56 archive snapshots spanning 2008–2026, with 16 years tracked.

Regulatory Verification Notes

The website is consistent with a small private medical or holistic practice, but its pages do not independently establish professional licensing or regulatory authorization. The legal footer identifies “Neurologo Dott. Prof. Giuseppe Elia Calligaris” and displays a VAT-number field populated with zeros, while some telephone fields also appear placeholder-like; these are disclosure-quality weaknesses rather than evidence of an identity contradiction. The registration record names BATTISTA PECERE and Pecere Battista, but that association does not independently prove that the named practitioner or service operator is the same real-world party. A third-party broker-data comparison produced no match and should be treated only as contextual reputation information.

EVIDENCE

- The legal footer on the homepage displays “© Copyright Neurologo Dott. Prof. Giuseppe Elia Calligaris” and the VAT value “000000000000”.
- The homepage's contact section lists Via Ponte Nuovo, 26, 20128 Milano, opening hours of Monday–Friday, 09:00–18:00, and a telephone contact.
- The domain was registered in 2015 and is approximately 11.07 years old; the registrar is Aruba s.p.a.
- The site is served on AS47583, operated by AS-HOSTINGER / Hostinger International Limited; its TLS certificate is issued by WR1 at DV validation level and is valid until 2026-09-25.

What to Verify Next

Before any credential or payment interaction, an independent check should confirm the practitioner's current professional standing with the relevant Italian or regional register, using the practitioner's legal name and Milan practice details. Appointment terms, cancellation conditions, privacy information, and any payment or refund arrangements should be obtained directly from the practice and checked through an independently sourced contact route. Any social-media profiles linked from the site should also be compared with the practitioner's name, location, and published service information.

EVIDENCE

- The biography and services pages provide the professional name and claimed areas of practice needed for an external registry comparison.
- The contact page provides the Milan office location and stated opening hours for independent confirmation.
- The site's footer supplies the legal-name and VAT-field information that should be reconciled with official professional or business records.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. No scam, phishing, impersonation, or identity-contradiction signals were observed, although the connection between the website and a verified real-world operator is not independently proven.

Infrastructure Integrity

The site uses direct hosting rather than a detected CDN or WAF edge, with one resolved origin address. Hostinger infrastructure provides ordinary operational support and is a mitigating technical signal, but hosting arrangements alone do not establish legitimacy.

EVIDENCE

- Hosting resolves to 93.127.204.149 in Germany on AS47583, registered through RIPE NCC, with no CDN detected.
- The transport certificate uses issuer WR1, DV validation, and an expiry timestamp of 2026-09-25T01:09:29+00:00.

Closing Assessment

Normal browsing and appointment-related interaction are proportionate to the assessed posture, subject to ordinary independent checks of practitioner identity, service terms, and payment protection before credentials or funds are provided.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of giuseppecaligaris.it.

- The request stayed on giuseppecaligaris.it. It was not redirected to another domain. CLEAR
- Registration is published under Aruba s.p.a.. CLEAR
- DNS for this domain is served by arubadns.cz. NOTED
- The registration is paid up to 2027-07-31. NOTED
- The earliest public archive of this site is from 2010-06-01. CLEAR
- It is hosted on AS-HOSTINGER, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about giuseppecaligaris.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
