

Is glomundane.com a scam? TrustSniffer's high-risk assessment: 0/100

glomundane.com

Verdict

0

OUT OF 100

CRITICAL RISK

glomundane.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Domain glomundane.com is expired and currently showing a Hostinger renewal/parked landing page. Content invites the owner to log in and renew or purchase a new domain; no active service content or transactions for visitors.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

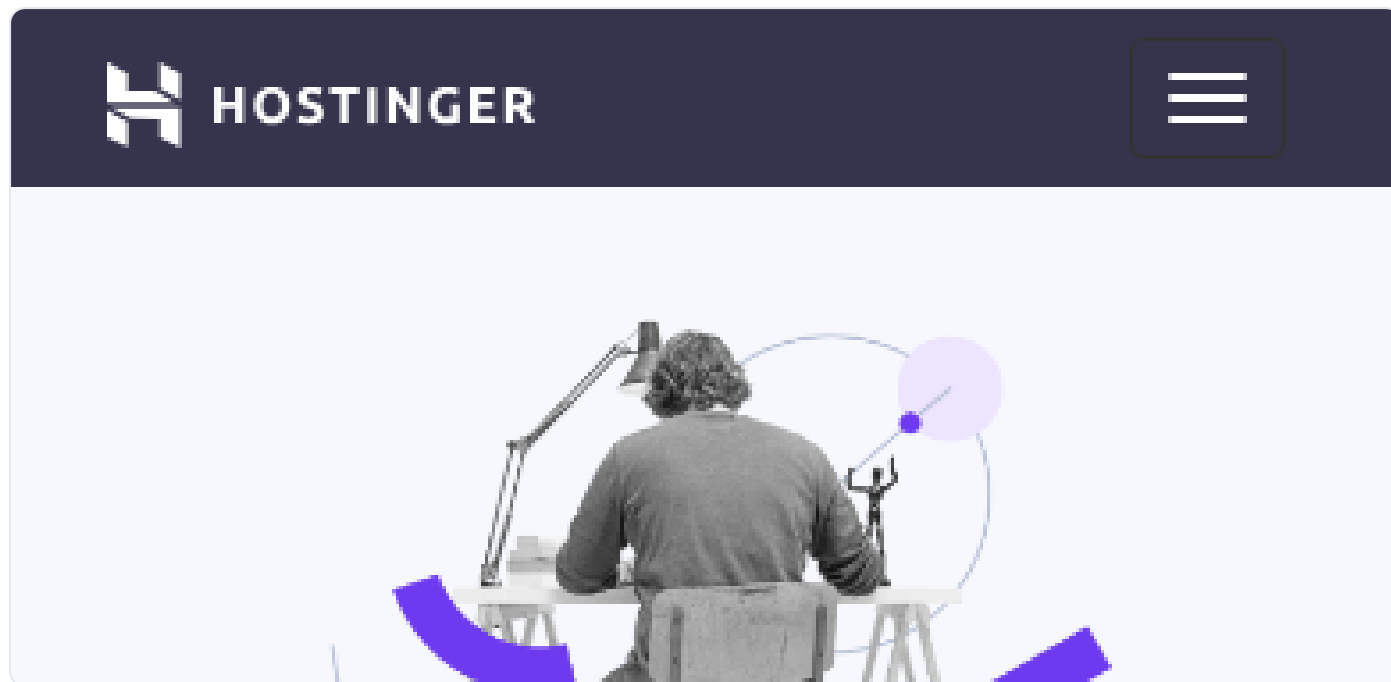

At a glance

The checks that decide most of this verdict.

The page as captured

<https://glomundane.com/>

What glomundane.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website currently presents a Hostinger domain-expiration and renewal landing page for glomundane.com rather than an operating service. Visitors are shown a notice that the domain has expired, with prompts to log in to renew it or purchase a new domain; no active products, transactions, or user-facing business operations are available.

Scam/Impersonation Risk

The site has a **critical interaction risk posture** because external reputation telemetry records confirmed blacklist listings and multiple malicious detections associated with the domain. This is materially different from the page-level presentation, which is a passive parked page with no active service or transaction flow; the benign appearance therefore does not resolve the external threat contradiction. Five abuse reports also apply to the hosting IP, although that signal is attributed to shared provider infrastructure and has been discounted as non-domain-specific. The site's operator identity is not independently verified, and the available evidence does not establish that the parked page represents a legitimate operating business.

EVIDENCE

- External reputation telemetry records 11 malicious detections and 2 suspicious detections, with a confirmed blacklist hit.
- The homepage is titled “Your domain is expired” and states that the website content is unavailable until the domain is renewed.
- Domain registration telemetry records creation on 2025-07-26 and an age of 1.07 years.
- Archive records list 0 snapshots, with first seen on 2020-08-11 and last seen on 2026-02-07, spanning 7 years tracked.

Regulatory Verification Notes

The accessible page is a hosting-renewal notice, not a legal, corporate, or regulated-service presentation. It provides no operating entity, licensing claim, registration number, terms for a substantive service, or business disclosures that could support regulatory verification; this is a transparency gap, not independent proof of fraud. No matching broker-reputation record was identified, but that contextual result does not establish licensing or legitimacy. The page's only clear commercial association is the Hostinger renewal and domain-purchase branding, which should not be treated as proof that Hostinger operates or endorses any separate service associated with the domain.

EVIDENCE

- The homepage contains only domain-expiration, renewal, login, hosting, and new-domain purchase content.
- No active service pages, legal pages, transaction forms, or licensing disclosures were available.
- The site's transport encryption uses a DV certificate issued by YE1, valid to 2026-11-15T02:04:45+00:00.

What to Verify Next

Any proposed use of this domain should first be tied to an independently confirmed operator and a known-good official channel, rather than to the parked page. If the domain is presented as representing a company or regulated service, the claimed entity and any required authorization should be checked directly against the relevant corporate or regulatory register. The domain's current status should also be confirmed through the registrar or an independently sourced domain-management channel before any account, payment, or recovery action is attempted.

EVIDENCE

- The homepage explicitly states that the domain is expired and that its website content is unavailable.
- The page presents no active product, customer workflow, or financial transaction process.
- The page contains no sensitive form, password form, or hidden form in the observed capture.

Summary Verdict

The overall posture is critical and unsuitable for sensitive interaction. The available evidence is consistent with a domain parked after expiry, while external threat intelligence introduces a confirmed and material contradiction

that controls the assessment. Real-world operator identity remains unverified.

Infrastructure Integrity

The domain resolves directly to Hostinger infrastructure rather than a detected CDN or WAF edge, with one likely origin address observed. This configuration is technically ordinary but offers no meaningful legitimacy assurance; the shared-provider attribution also limits the significance of IP-level abuse reporting.

EVIDENCE

- Hosted on AS47583, AS-HOSTINGER — Hostinger International Limited, CY.
- Resolved to 2.57.91.92 in Cyprus, with 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- DNS registry is RIPE NCC.

Closing Assessment

Sensitive actions should not be performed through this domain. Any legitimate need connected with the domain should proceed only through independently confirmed ownership and established official channels, with credentials and financial activity withheld unless those checks succeed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 5 reports on hosting IP 2.57.91.92 (Hostinger International Limited, Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of glomundane.com.

- The request stayed on glomundane.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under HOSTINGER operations, UAB. [CLEAR](#)
- DNS for this domain is served by dns-expired.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-07-26. [NOTED](#)
- The earliest public archive of this site is from 2020-08-11. [CLEAR](#)
- It is hosted on AS-HOSTINGER, from a server in CY. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about glomundane.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
