

Is gminerva.com legit? TrustSniffer's high-trust assessment: 100/100

gminerva.com

Verdict

100

OUT OF 100

HIGH TRUST

gminerva.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

Gráficas Minerva — an online printing shop based in Córdoba offering a wide catalog of printed products (business cards, flyers, calendars, hospitality items), visible pricing, contact information and local address. Typical ecommerce flow for ordering printed goods.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Gráficas Minerva is an established-looking online printing shop serving businesses and individuals from Córdoba, with a broad catalogue of printed products, visible pricing, contact information, and a conventional ecommerce ordering model based on product sales, fulfilment, and shipping.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents an ordinary printing-services business rather than a financial scheme, cryptocurrency service, credential-harvesting page, or impersonation site. Its catalogue covers business cards, flyers, calendars, hospitality materials, merchandising, stationery, and related print products; the observed form activity was limited to newsletter and contact/order functions, with no login form, sensitive credential form, wallet interaction, or untrusted submission destination identified. External security checks likewise returned no malicious or suspicious detections, and no brand-impersonation or phishing indicator was recorded. The available evidence therefore supports a low scam and impersonation risk, while not independently proving the real-world operator's identity.

EVIDENCE

- The homepage describes an online printing shop offering products including business cards, flyers, calendars, roll-up displays, hospitality materials, and personalised stationery.
- The homepage contains one newsletter/contact-order form; no login form, hidden sensitive form, wallet connection, or external password submission was observed.
- The domain was registered in 2007 and is approximately 19 years old.
- Web-archive records span 2009-11-24 to 2026-05-08, covering 18 years of tracked history.

Regulatory Verification Notes

The site's apparent activity is the sale of physical printing services, so the absence of a financial-services licence claim is not itself inconsistent with the stated business model. However, no licence or registration number was identified in the reviewed material, and the operator's real-world identity remains independently unverified; these are verification considerations rather than evidence of misconduct. The site's visible local-business presentation, long registration continuity, valid transport encryption, and clean external reputation are consistent with an established commercial website. A third-party broker-reputation lookup produced no match, but this is contextual only and does not constitute legal or regulatory confirmation.

EVIDENCE

- The homepage identifies a Córdoba-based printing business and displays customer contact details and product pricing.
- The domain registrar is Tecnocratica Centro de Datos, S.L.; the registration expires on 2027-08-27.
- The site is served from AS16276, operated by OVH - OVH SAS, FR.
- Its TLS certificate is issued by YR1, uses DV validation, and is valid to 2026-11-08.

What to Verify Next

Before credential or payment interaction, an interested party should independently confirm the legal trading identity associated with the Córdoba address and telephone details, review the checkout terms governing returns, delivery, refunds, and payment disputes, and ensure that any payment method provides appropriate purchaser protection. Licensing verification is relevant only if the transaction involves a separately regulated service rather than ordinary printing fulfilment. Official contact channels should also be confirmed through an independent route before resolving disputes or changing account details.

EVIDENCE

- The reviewed material identifies a physical local address and telephone contact but does not independently establish the legal operator.
- The site presents a conventional product-ordering flow for physical goods and services.
- The reviewed material did not identify a licence or registration number.

Summary Verdict

The overall posture is **high trust and low risk**, with the evidence consistent with an established, apparently legitimate ecommerce business and no observed scam, phishing, blacklist, or impersonation contradiction. The

classification supports normal site use, subject to the remaining distinction between website trustworthiness and independently verified operator identity.

Infrastructure Integrity

The website benefits from CDN/WAF protection, with the observed edge address associated with AS16276 and OVH - OVH SAS, FR; the origin server was not observable in this assessment. This arrangement reduces direct origin exposure and is a mitigating infrastructure signal, but it is not proof of business legitimacy.

Closing Assessment

Ordinary browsing and purchasing may proceed on a proportionate basis, provided the prospective customer completes standard independent merchant-identity, returns-policy, and payment-protection checks before submitting credentials or payment details.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gminerva.com.

- The request stayed on gminerva.com. It was not redirected to another domain. CLEAR
- Registration is published under Tecnocratica Centro de Datos, S.L.. CLEAR
- DNS for this domain is served by lucushost.com, across 3 name servers. NOTED
- The registration is paid up to 2027-08-27. NOTED
- The earliest public archive of this site is from 2009-11-24. CLEAR
- It is hosted on OVH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gminerva.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
