Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

GOETHE is an established Japanese lifestyle and business magazine portal covering fashion, watches, cars, food, golf, travel, health, entertainment, finance, and executive-oriented services. It presents editorial articles, sponsored features, magazine sales, a free membership lounge, restaurant search, and related promotional content through a publisher-supported media model.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent editorial publication rather than a phishing, impersonation, or financial-manipulation operation; testing found no login form, hidden sensitive form, wallet connection, clipboard interception, or suspicious script behavior. Its finance coverage is presented within a broader magazine context, with no evidence of investment solicitation or deceptive payment mechanics.

- The homepage identifies the GOETHE magazine brand and provides extensive editorial navigation across lifestyle and business categories.
- The homepage contains no sensitive form, external password submission, or hidden form.
- Behavioral testing recorded zero wallet-connect, wallet-sensitive, wallet-drainer, clipboard-hijack, or suspicious-inline-script events.
- The domain has 253 archive snapshots spanning 2018–2026, covering 9 years with a maximum observed gap of 1 year.

Regulatory Verification Notes

The site operates as a publisher and does not present itself as a regulated financial service. Publisher attribution, legal links, advertising disclosures, and consent notices support a conventional media business model. No licensing claim or license number is presented; for this type of publisher, that is a limited transparency note rather than evidence of deception. External reputation checks were clean, and no broker-related match was identified.

- The site's business model is advertising, sponsored content, magazine sales or subscriptions, and membership or promotional services.
- Hosting is identified as AS16509, Amazon.com, Inc., US.
- TLS uses Amazon RSA 2048 M01 with DV validation and is valid to 2026-10-26.
- The domain was registered on 2017-08-18 and is approximately 8.96 years old.

What to Verify Next

For any commercial or membership transaction, confirm the applicable terms, billing conditions, cancellation provisions, and privacy disclosures on the site. Where a transaction involves a third-party advertiser or service provider, independently confirm that provider’s identity and applicable authorization.

- The homepage provides access to magazine, membership, sponsored-content, and promotional-service pathways.
- Legal and disclosure links are present on the site.
- The site’s advertising and personalized-advertising consent controls are explicitly displayed.

Summary Verdict

The website is legitimate, established, and suitable for normal interaction. Its coherent publishing model, sustained historical presence, clean reputation, and consistent technical operation support a high-confidence trustworthy posture.

Infrastructure Integrity

The hosting environment is identified and uses mainstream Amazon infrastructure. The available evidence provides a stable, recognizable hosting posture, although no separate CDN or WAF characterization is established.

- Served from AS16509, Amazon.com, Inc., US.
- TLS certificate issuer: Amazon RSA 2048 M01; validation level: DV; expiry: 2026-10-26.

Closing Assessment

Prospective users may proceed with ordinary browsing, account login, membership activity, and standard site transactions under normal organizational controls.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of goetheweb.jp.

- The request stayed on goetheweb.jp. It was not redirected to another domain. CLEAR

- DNS for this domain is served by awsdns-62.net, across 4 name servers. NOTED
- The registration is paid up to 2026-08-31. NOTED
- The earliest public archive of this site is from 2018-03-11. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about goetheweb.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
