

Is gonzaloperezburillo.com a scam? TrustSniffer's high-risk assessment: 0/100

gonzaloperezburillo.com

Verdict

0

OUT OF 100

CRITICAL RISK

gonzaloperezburillo.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

A Spanish-language personal portfolio page for Gonzalo Pérez Burillo with navigation items (Trabajos, Biografía, Contacto), an embedded video player, and copyright notice. No forms or transaction mechanisms detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Certificate	Encrypted connection Issued by Sectigo Public Server Authentication CA DV R36	NOTED

The page as captured

<https://gonzaloperezburillo.com/>

What gonzaloperezburillo.com served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

A Spanish-language personal portfolio website for Gonzalo Pérez Burillo, presenting sections for creative work, biography, contact, and an embedded video player; its apparent purpose is individual self-promotion and the display of artistic or professional work rather than direct commercial activity.

Scam/Impersonation Risk

Confirmed external reputation contradictions materially outweigh the benign appearance of the pages.

The domain is blacklisted by multiple external sources, with malicious detections also reported by security providers. The site itself presents a low-interaction portfolio: no login, password, payment, or transaction forms were detected, and no brand impersonation indicators were identified in the page content. However, two suspicious inline scripts were observed during behavioral analysis, and the combination of external detections and blacklist status warrants a clearly restrictive posture for credentials, account access, downloads, or financial activity. The available evidence does not establish that the portfolio owner is the operator of the domain.

EVIDENCE

- The homepage is a Spanish-language portfolio titled “Gonzalo Pérez Burillo,” with “Trabajos,” “Biografía,” “Contacto,” and a video player; no sensitive forms were detected.
- External reputation assessment recorded 9 malicious detections and 1 suspicious detection, with security providers including Kaspersky and Sophos among the reporting vendors.
- The domain is recorded as blacklisted by the external reputation sources used in the assessment.
- Behavioral analysis recorded 2 suspicious inline scripts, 0 external XHR requests, 0 password-submission forms, and 0 wallet-provider or wallet-drainer activity.

Regulatory Verification Notes

The site appears to represent an individual creative portfolio rather than a regulated financial or investment service, and it makes no licensing claim. The identity presented on the pages remains independently unverified, so the displayed personal name should be treated as an on-site identity claim rather than proof of the real-world operator. The absence of a financial business model reduces the relevance of licensing checks, but it does not resolve the external security contradiction or establish accountability for the domain.

EVIDENCE

- The homepage and navigation identify the subject as Gonzalo Pérez Burillo and provide biography, work, and contact sections without a stated corporate entity.
- No license authority or license number is claimed on the available pages.
- The domain was registered on 2015-01-28 and is approximately 11.57 years old; its stated registration expiry is 2027-01-28.
- The site uses a DV TLS certificate issued by Sectigo Public Server Authentication CA DV R36, valid until 2026-11-23.

What to Verify Next

Before any non-passive interaction, an organization should independently confirm that the domain is the intended official address for the named individual, preferably through an offline or previously established channel. Any proposed download, account request, payment, or request for personal information should be validated separately, and the domain's current blacklist status should be rechecked before access is expanded. If the site is being considered for professional engagement, the identity and contractual counterparty should be confirmed using independently sourced records rather than the website alone.

EVIDENCE

- The contact section is present but the available analysis detected no contact form or other transaction mechanism.
- The biography and portfolio pages provide the principal identity context available on the site.
- The site's transport encryption is domain-validated rather than organization-validated, so TLS confirms encrypted transport but not operator identity.
- The website's page content contains no stated licensing or corporate-registration information relevant to a regulated service.

Summary Verdict

The overall posture is **critical trust risk**. Although the website presents as a simple personal portfolio with limited interaction surface, the confirmed external blacklist status and associated malicious detections create a material risk for sensitive engagement, while operator identity remains unverified.

Infrastructure Integrity

The site is hosted directly on STRATO – Strato GmbH in Germany, using AS6724, with two likely origin IP addresses and no detected CDN or WAF layer. The transport certificate is valid and issued by Sectigo, which supports encrypted delivery but does not offset the external reputation findings or prove legitimacy.

Closing Assessment

Interaction should remain limited to passive viewing, with credentials, downloads, personal-information submission, account access, and financial activity withheld unless the domain and operator are independently authenticated.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page carried inline scripts written in a style TrustSniffer treats as suspicious.
Behaviour in a sandbox rule:BEHAV_SUSPICIOUS_INLINE_SCRIPTS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100

Identity verification confidence	25%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gonzalopezburillo.com.

- The request stayed on gonzalopezburillo.com. It was not redirected to another domain. CLEAR
- Registration is published under Cronon GmbH. CLEAR
- DNS for this domain is served by rzone.de, across 2 name servers. NOTED
- The registration is paid up to 2027-01-28. NOTED
- The earliest public archive of this site is from 2018-08-07. CLEAR
- It is hosted on STRATO, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gonzalopezburillo.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
