

Is gooroocredito.com.br legit? TrustSniffer's high-trust assessment: 90/100

gooroocredito.com.br

Verdict

90

OUT OF 100

HIGH TRUST

gooroocredito.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-03 by automated analysis. Classification confidence 70%.

What this site appears to be

Portuguese-language landing page for Gooroo Crédito promoting online Crédito do Trabalhador loans to eligible CLT employees. It offers website and WhatsApp simulations, describes eligibility and installment limits, states that simulations are free and approval-dependent, and provides company registration, partner-bank, address, telephone, email, privacy, and terms information.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Portuguese-language consumer-credit platform operated under the Gooroo Crédito brand, enabling eligible Brazilian employees to simulate and arrange payroll-linked Crédito do Trabalhador loans online or through WhatsApp, apparently earning revenue through loan origination or banking-partnership commissions.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, malicious reputation findings, or other fraud indicators were observed. The site presents a coherent lending proposition: eligible CLT employees may request free, approval-dependent simulations, with repayment advertised over as many as 36 installments. Claims such as “100% protected,” service to more than 450,000 customers, and having the best rates for each profile are promotional representations rather than independently substantiated facts, but they do not outweigh the convergent evidence of an established identity, continuous history, clean external reputation, and benign observed behavior.

- The homepage consistently identifies the service as Gooroo Crédito and describes Crédito do Trabalhador eligibility, online contracting, free simulation, approval conditions, and repayment in up to 36 installments.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing finding, no external blacklist finding, and 0 reported abuse incidents.
- The domain was registered in 2021 and is approximately 4.88 years old; its registration is valid through 2031.
- The web archive contains 29 snapshots spanning 2024–2026, representing 3 years of tracked history, with no detected repurposing or semantic identity drift.

Regulatory Verification Notes

The site identifies its legal entity, supplies a physical address and telephone contact, and states that lending is provided in partnership with Banco Ribeirão Preto S.A. Privacy and terms information, eligibility rules, and credit-approval disclaimers further support a professionally presented financial-services operation. The supplied pages do not establish a specific regulatory authorization or license number for Gooroo Crédito itself; this is a limited disclosure-verification point, not evidence of fraud, particularly because the site describes an intermediation model involving a named partner bank. The organization-validated certificate independently binds the encrypted service to “Finnet S/A - Tecnologia e Instituicao de Pagamento.”

- The homepage and governance information provide a company registration, legal identity, physical address, telephone details, and the named Banco Ribeirão Preto S.A. partnership.

- The privacy and terms materials provide formal user-data and service conditions, while the product disclosures state that simulations are free and credit remains subject to approval.
- The site does not present a specific license authority or license number for Gooroo Crédito on the supplied pages.
- TLS is organization-validated, issued by DigiCert Global G3 TLS ECC SHA384 2020 CA1 to Finnet S/A - Tecnologia e Institicao de Pagamento, and valid until 2027-02-13.

What to Verify Next

For institutional onboarding or material credit activity, due diligence should confirm the stated legal entity and company registration in the relevant Brazilian corporate registry, validate the described relationship with the named bank through an independent bank-controlled channel, and review the contractual documents for the lender of record, total effective cost, applicable rates, repayment schedule, data-processing terms, and complaint procedure. Official contact channels should also be confirmed independently before exchanging case-specific financial documents.

- The governance information provides the identifiers needed for an independent corporate-registry comparison.
- The homepage's named bank relationship creates a specific partnership claim that can be checked directly with that institution.
- The product page states that approval is conditional, making the final contract—not the simulation—the authoritative source for pricing and obligations.
- The privacy and terms materials provide the baseline documents for legal, data-protection, and complaint-handling review.

Summary Verdict

The website presents as a legitimate, established, and trustworthy consumer-credit operation. Its coherent identity, mature public presence, clean threat reputation, professionally documented service model, and benign observed behavior support normal interaction, including account login and standard use.

Infrastructure Integrity

The service is delivered through Akamai's mainstream CDN/WAF infrastructure, which limits direct exposure of the origin server and provides a meaningful defensive control without independently proving business legitimacy.

- The hosting infrastructure serves the site from AS20940, operated by AKAMAI-ASN1 – Akamai International B.V., NL.
- All three observed addresses were Akamai edge nodes; no origin-server candidate was exposed during the assessment.

Closing Assessment

Prospective users may engage with the site normally, while applying standard financial due diligence to contractual terms and independently confirming institutional details before entering a material credit commitment.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gooroocredito.com.br.

- The request stayed on gooroocredito.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by akamai.net, across 6 name servers. NOTED
- The registration is paid up to 2031-09-16. CLEAR
- The earliest public archive of this site is from 2024-02-26. CLEAR
- It is hosted on AKAMAI-ASN1, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gooroocredito.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
