Full analysis

Overview

Grace Store is an established Pakistani online retailer presenting ready-to-wear and unstitched clothing, embroidered shawls, bedsheets, comforters, and related home textiles through a discounted Shopify storefront. Its apparent business model is direct-to-consumer ecommerce, supported by product pricing, customer reviews, cart and checkout functions, shipping information, and a Pakistani contact number.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model, with clothing and bedding categories, product pricing, customer reviews, cart functionality, checkout, and no indicators of phishing, brand impersonation, credential harvesting, cryptocurrency activity, or malicious browser behavior. The storefront's content and observed behavior are consistent with ordinary ecommerce operations.

- The homepage identifies Grace Store as a clothing and bedding retailer and displays extensive product categories and promotional pricing.
- The homepage provides cart, checkout, login, shipping, customer-review, and telephone-contact functionality without a sensitive external form.
- Behavioral testing recorded no external activity, hidden forms, wallet connections, clipboard manipulation, cloaking, or suspicious scripts.
- The domain was registered in 2016 and is approximately 10.57 years old.

Regulatory Verification Notes

The site appears to operate as a retail ecommerce business rather than a financial or investment service. No licensing claim or registration number is evidenced in the supplied storefront material; this is a transparency item for ordinary commercial verification, not an identity contradiction. External reputation checks were clean, the domain has a top-tier global traffic footprint, and no broker-dataset match was identified.

- The site's archive records contain 104 snapshots spanning 2016–2026, covering 11 years.
- The site's TLS certificate uses DV validation, was issued by YE1, and is valid through 2026-10-25.
- The domain's registration expiry is 2028-01-09.
- The site is ranked within the global top one million websites, at rank 90063.

What to Verify Next

Before a significant purchase, the prospective customer should confirm current delivery, return, and refund terms on the storefront and independently confirm the business's official contact channels. Where a transaction requires legal or tax documentation, those details should be checked against the applicable Pakistani commercial requirements.

- The homepage states that free shipping applies above Rs.5999 and that taxes and shipping are calculated at checkout.
- The storefront provides customer reviews, product prices, cart functionality, and checkout flow for transaction review before purchase.
- The displayed Pakistani telephone contact is available on the homepage.

Summary Verdict

Grace Store presents as a legitimate, established, and trustworthy ecommerce website with a coherent retail purpose and no observed scam or impersonation indicators. Normal interaction, including account login and standard purchasing activity, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure; the observed endpoint is 23.227.38.65 on AS13335, operated by Cloudflare, Inc., and the origin server was not observable. This protective edge architecture is a mitigating security signal, not proof of business legitimacy.

Closing Assessment

Standard browsing, account use, and ordinary purchases are proportionate to the site's established trust posture, with normal attention to the retailer's posted transaction terms.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gracestore.pk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
