Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Grange Builders Providers is an online Dublin-based retailer presenting building materials, home appliances, DIY and hardware, garden products, tool hire, skip hire, fuel, and related household goods, with product purchasing, delivery or collection, customer accounts, and standard ecommerce functions.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model with identifiable product categories, prices, delivery or collection options, customer-service details, and account functionality rather than investment, cryptocurrency, or high-return schemes. Automated examination found no brand-impersonation indicators, hidden forms, externally submitted password forms, wallet-drainer activity, or cloaking; the observed dynamic page changes and external requests are therefore better understood as non-conclusive ecommerce behavior than as evidence of impersonation. The available evidence supports an apparently legitimate, low-risk retail site, although the operator's real-world identity remains independently unverified.

EVIDENCE

- Homepage: Lists building materials, timber, insulation, tool hire, home appliances, garden and landscaping, plumbing, fuel depot, skip hire, and other retail categories.
- Homepage: Provides product listings with euro prices, a cart, customer sign-in and account-creation functions, delivery or collection references, and no captured sensitive form submission to an untrusted destination.
- External reputation checks: Recorded zero malicious detections, zero suspicious detections, no confirmed blacklist or phishing result, and no abuse reports.
- Domain registration: Registered 2005-07-26 (~21.08 years old), with expiry recorded as 2028-07-27.

Regulatory Verification Notes

The site identifies itself as Grange Builders Providers and publishes an address, telephone number, contact email, privacy policy, delivery information, and cancellation policy. These disclosures are consistent with an operating retail business, but the captured material does not independently verify the legal operator or establish a regulated status; no license or registration number is presented. This is a transparency and merchant-verification point rather than evidence of a scam. No adverse broker-reputation match was identified.

EVIDENCE

- Contact and footer content: States "Grange Builders Providers," Unit 1-3 Baldoyle Industrial Estate, Baldoyle, Dublin 13, D13 KR76, Ireland, with a telephone number and contact channel.
- Policy navigation: Provides Privacy Policy, Delivery Information, and Cancellation Policy pages.
- Hosting resolution: Served from AS32244, LIQUIDWEB — Liquid Web, L.L.C., US.
- Transport encryption: TLS certificate issued by YR1 at DV validation level, valid to 2026-11-02.

What to Verify Next

Before credential or payment interactions, an independent merchant-identity check should confirm that the published business details correspond to the intended retailer. The delivery, cancellation, and returns terms should be reviewed for the intended order, and payment should use a method providing appropriate transaction and dispute protection. Contact channels should also be confirmed through an independently sourced route before resolving an account or payment issue.

EVIDENCE

- The homepage exposes account login, account creation, cart, delivery or collection, and cancellation-policy pathways, making those the relevant points for transaction review.
- The site presents ordinary retail purchasing rather than a regulated financial service, so the key outstanding checks concern merchant identity, fulfilment terms, and payment protection.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture for its stated retail purpose. The conclusion is strong at the site-risk level, while the real-world operator identity is not independently verified.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer against direct exposure of the service infrastructure. The observed address was 209.59.187.33 on the Liquid Web network, and the origin server was not observable in this analysis; protective infrastructure supports resilience but does not itself prove business legitimacy.

EVIDENCE

- Infrastructure: Cloudflare was detected as the CDN/WAF provider, with one observed CDN edge address and no origin candidates identified.
- Network artifact: 209.59.187.33 resolved through AS32244 in the United States.

Closing Assessment

Ordinary browsing and retail use are proportionate to the available risk posture, subject to the independent merchant, policy, and payment-protection checks appropriate before account or payment activity.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of grange.ie.

- The request stayed on grange.ie. It was not redirected to another domain. CLEAR
- Registration is published under Myhost.ie. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-07-27. CLEAR
- The earliest public archive of this site is from 2001-02-27. CLEAR
- It is hosted on LIQUIDWEB, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about grange.ie at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
