- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2014.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Green Apple Public School, Baddi is an informational website for a private K–12 school that presents its curriculum, facilities, campus, transportation, staff, activities, contact details, and admissions process, with online enrolment as its apparent business purpose.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent institutional-school profile rather than a financial, cryptocurrency, or credential-harvesting operation; its sole identified form is an admissions/contact form, with no login form, hidden form, password submission, wallet connection, or external sensitive-form destination detected. The available reputation signals are clean, and no phishing, impersonation, malicious, or blacklist indication was identified. The domain also shows established registration and historical continuity consistent with an operating education website.

EVIDENCE

- The homepage and admissions pages describe Green Apple Public School, Baddi, admissions for the 2026–2027 academic year, facilities, curriculum, and enrolment rather than deceptive financial services.
- The site's form analysis identified one admissions/contact form with no sensitive form and no untrusted destination; the homepage showed no login or hidden form.
- Registration records show the domain was created on 2019-07-02 and is approximately 7.14 years old; the registrar is GoDaddy.com, LLC.
- Historical records show coverage from 2014-05-17 through 2026-04-12, spanning 13 years tracked, with no suspicious repurposing or semantic drift identified.

Regulatory Verification Notes

The website identifies the school as affiliated with CBSE and displays affiliation number 630281 with “Secondary” affiliation status. It also states that the school was established in 2012 under the Learning Tree Educational Society and provides a dedicated Mandatory Disclosure page, contact details, and staff information. These are substantive on-site identity and disclosure claims, but the real-world operator identity and the stated affiliation are not independently verified by the available evidence. The site is therefore apparently legitimate and evidence-consistent, while its regulatory and legal identity claims should remain subject to ordinary external confirmation. The clean third-party reputational context is supportive only and does not constitute a licensing or regulatory determination.

EVIDENCE

- The homepage identifies “Green Apple Public School Baddi,” states “Affiliated to CBSE,” and displays affiliation number 630281 and affiliation status “Secondary.”
- The About page states that the school was established in 2012 under the Learning Tree Educational Society.
- The navigation includes a Mandatory Disclosure page, Admission page, Staff Details page, and Contact page.
- The site's transport encryption uses a DV certificate issued by YE2, valid through 2026-10-21.

What to Verify Next

Before credential or payment interactions, an institution or prospective enrollee should independently confirm the school's legal operating identity and CBSE affiliation through the relevant official registry or an offline institutional contact route. The admissions process should also be checked for applicable tuition, refund, cancellation, and payment-protection terms before funds are transferred. Official contact channels should be confirmed through an independently sourced school directory or telephone route rather than relying solely on the website.

EVIDENCE

- The admissions page provides the enrolment pathway and should be compared with independently obtained fee and refund information.
- The Mandatory Disclosure page is the site's designated location for institutional disclosure and should be checked against the relevant official education records.
- The Contact page provides the school's published telephone, email, and address details for independent comparison.

Summary Verdict

The overall posture is **high trust and low risk**, with the available evidence consistent with an established, apparently legitimate institutional website. No scam, phishing, impersonation, or identity-conflict signal was observed, although the operator's real-world identity is not independently verified.

Infrastructure Integrity

The site resolves through Hostinger International Limited infrastructure in Germany, with no CDN detected and two likely origin addresses identified. This is ordinary hosting architecture and provides a defined technical hosting context, while the presence of valid transport encryption is a mitigating security control rather than proof of institutional legitimacy.

EVIDENCE

- Hosted on AS47583, operated by AS-HOSTINGER – Hostinger International Limited, CY; hosting country recorded as DE.
- Infrastructure resolution identified 2 unique IP addresses, 0 edge IPs, and 2 likely origin IPs.
- The site's TLS certificate is DV-validated, issued by YE2, and expires on 2026-10-21.

Closing Assessment

Ordinary browsing and routine admissions enquiries are proportionate to the assessed posture; independent confirmation of institutional identity, affiliation, payment terms, and contact channels should precede credential submission or payment.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	39%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of greenappleedu.com.

- The request stayed on greenappleedu.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2031-07-02. CLEAR
- The earliest public archive of this site is from 2014-05-17. CLEAR
- It is hosted on AS-HOSTINGER, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about greenappleedu.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
