Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

GREENFUNDING is a Japanese crowdfunding marketplace presenting active, upcoming, and completed campaigns for gadgets, consumer electronics, lifestyle products, creative works, and social initiatives, with supporters receiving project rewards rather than investment returns.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent crowdfunding marketplace, visible campaign activity, operator and legal information, social channels, FAQs, and explicit warnings about impersonation scams. The absence of phishing, malicious-content, or brand-impersonation indicators supports normal interaction with the platform.

- The homepage identifies GREENFUNDING as a crowdfunding marketplace with active, upcoming, and completed projects.
- External reputation checks recorded no malicious or suspicious detections and no blacklist hit.
- The domain was registered 2012-07-17 (~14.05 years old).
- The archive contains 967 snapshots spanning 2012–2026 (15 years tracked).

Regulatory Verification Notes

The site provides operator information, legal notices, FAQs, and privacy-related material, which supports an established marketplace model. The reviewed material does not present a specific financial-services license or registration number; this is a transparency point for regulatory verification, not evidence of fraud. The platform's stated reward-based crowdfunding model should be distinguished from an investment or deposit-taking service.

- The homepage presents campaign categories, rankings, progress indicators, and reward-oriented project participation.
- The site provides operator information, legal notices, FAQs, and anti-fraud guidance.
- Hosted on AS16509 (AMAZON-02 - Amazon.com, Inc., US).
- TLS certificate issued by Amazon RSA 2048 M01 (DV), valid to 2027-01-09.

What to Verify Next

For any material commitment, the relevant campaign page should be reviewed for delivery terms, refund conditions, project status, and the identity of the individual campaign operator. Where a regulated activity is

alleged, licensing should be confirmed through the applicable official registry, and official support channels should be independently confirmed.

- The homepage separates active, upcoming, and completed campaigns, enabling campaign-specific review.
- The site provides FAQs and legal information relevant to participation and platform use.

Summary Verdict

GREENFUNDING presents as a legitimate, established, trustworthy website. Its coherent business model, sustained historical presence, clean external reputation, and consistent technical operation converge on a high-confidence positive trust posture.

Infrastructure Integrity

The observed hosting and transport configuration is conventional and stable, providing a mitigating infrastructure signal while remaining supplementary to the site’s identity and content evidence.

- The hosting infrastructure is associated with Amazon delivery services in the United States.
- The site returned stable successful responses during technical observation, with no cloaking or hidden-form behavior detected.

Closing Assessment

Normal interaction, including account login and standard platform use, is appropriate; campaign-specific commercial terms should still be reviewed before committing funds.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of greenfunding.jp.

- The request stayed on greenfunding.jp. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-37.net, across 4 name servers. NOTED
- The registration is paid up to 2027-07-31. NOTED
- The earliest public archive of this site is from 2012-08-19. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about greenfunding.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
