- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

GTBA Telecom is a regional Brazilian telecommunications provider offering fiber-optic internet, television bundles, enterprise connectivity, customer applications, and local support for customers across coastal Paraná and Garuva, Santa Catarina.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent telecommunications business with regional coverage, service pricing, support resources, physical locations, and links to established social platforms. Available technical and reputation checks found no phishing, impersonation, malicious-content, or blacklist indicators.

- Domain registration records date the site to 2011-07-15, making it approximately 15.06 years old.
- Historical records show 24 archive snapshots spanning 2013–2026, with 14 years tracked.
- The homepage identifies GTBA Telecom and presents residential, business, and television services consistently.

Regulatory Verification Notes

The site identifies its operating business as GTBA Telecom and provides commercial service information, contact routes, coverage areas, and physical locations. The homepage advertises 500 MB service at R\$99.00 and 700 MB service at R\$169.00, unlimited internet, installation subject to equipment availability, television packages with more than 100 channels, and enterprise services including dedicated links, VPN, and firewall solutions. No specific licensing authority or registration number is claimed in the supplied content; this is a limited disclosure point rather than evidence of impersonation or fraud. The registration record names GTBA TELECOM LTDA ME.

- Hosting is associated with AS31898, Oracle Corporation, United States.
- The homepage provides pricing, service coverage, telephone support, physical locations, and “Sobre” and “Quem Somos” resources.
- The site links to Facebook and Instagram profiles and provides customer-support and subscriber-application access points.

What to Verify Next

For procurement or regulated onboarding, confirm any applicable telecommunications authorization through the relevant Brazilian registry and reconcile the contracting entity with the service agreement. Before subscription,

confirm plan availability, installation conditions, and support channels through the site’s published business contacts.

- The homepage identifies coastal Paraná and Garuva, Santa Catarina as service areas.
- The homepage states that installation is complimentary subject to equipment availability.
- The site provides “Fale Conosco,” “Central do Assinante,” and “APP GTBA” access points.

Summary Verdict

The site presents as a legitimate, established, and trustworthy regional service provider with a consistent identity, substantive commercial content, clean security indicators, and no observed contradiction signals. Normal interaction, including account login and standard account activity, is appropriate.

Infrastructure Integrity

The site benefits from identifiable Oracle-hosted infrastructure and valid transport encryption. The certificate uses DV validation, is issued by YR1, and remains valid through 2026-10-21; these controls mitigate common delivery and transport risks but do not independently establish legitimacy.

- Served from AS31898, Oracle Corporation, United States.
- TLS certificate issuer: YR1; validation level: DV; valid to 2026-10-21.

Closing Assessment

Standard subscription, account, and support interactions are proportionate to the site’s assessed posture, subject to ordinary review of contractual terms and service conditions.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of gtbatelecom.com.br.

- The request stayed on gtbatelecom.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by 44.10, across 2 name servers. NOTED
- The registration is paid up to 2028-07-15. CLEAR
- The earliest public archive of this site is from 2013-08-12. CLEAR

- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about gtbatelecom.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
