## Full analysis

### Overview

The website is an Italian-language manufacturer and online catalog for Guerini Armi, presenting firearms, accessories, craftsmanship, technical specifications, and related customization or mounting services through a physical-goods retail model.

### Scam/Impersonation Risk

No contradictions were observed. The available evidence does not indicate phishing, brand impersonation, malicious behavior, or a confirmed blacklist finding. The captured homepage does not present a login or sensitive-data form, and observed behavior showed no hidden forms, wallet activity, suspicious scripts, external posting, or cloaking. The domain's long registration history and consistent historical category further support an established web presence, although the real-world operator remains independently unverified.

#### EVIDENCE

- The homepage contains no login or sensitive form; no hidden forms, wallet activity, or external posting were detected during interaction.
- Available external reputation checks returned no malicious or blacklist finding; reputation coverage was partial.
- The domain was registered on 2003-10-15 and is approximately 22.87 years old.

#### Regulatory Verification Notes

The product page describes the Chamois kipplauf single-shot rifle, including calibers, materials, mechanical construction, hunting use cases, and customization or optic-mounting services. This is consistent with a genuine firearms manufacturer and retailer, but firearms sales require jurisdiction-specific checks that are not resolved by the page content alone. No license authority or license number is disclosed in the supplied site evidence, creating a regulatory-transparency item for verification rather than evidence of wrongdoing. The registration record associates the domain with Guerini Armi di Guerini A. & C. S.N.C.; that record supports apparent identity continuity but does not independently prove the operator's real-world identity.

#### EVIDENCE

- The product page provides detailed technical and craftsmanship information for the Chamois firearm and identifies the site as a manufacturer/catalog presence.
- The registration record lists OVH as registrar and Guerini Armi di Guerini A. & C. S.N.C. as the associated organization.
- The site is served from AS16276 (OVH - OVH SAS, FR).
- The site's TLS certificate is issued by YR2, uses DV validation, and is valid to 2026-11-10.

#### What to Verify Next

Before a credential or payment interaction, the prospective customer should independently confirm the merchant's legal identity, firearms authorization, and applicable sales requirements through the relevant official registry or authority. The customer should also compare independently sourced contact details with the site's contact route, review return and delivery terms, and use payment methods offering appropriate transaction protection.

#### EVIDENCE

- The homepage navigation includes dedicated "Contatti" and "Shop online" routes that can be compared with independently sourced merchant information.
- The site's commercial model involves physical-goods sales, making authorization, delivery conditions, returns, and payment protection the relevant transaction checks.

#### Summary Verdict

The website has a **high-trust, low-risk posture** and is apparently legitimate based on converging content, behavioral, registration, reputation, and infrastructure signals. The evidence is consistent with an established site, while independently verified attribution of the real-world operator has not been achieved.

## Infrastructure Integrity

The site is protected by a CDN/WAF layer, with the observed address operating as an edge endpoint rather than an exposed origin candidate. This reduces direct origin exposure and is a mitigating infrastructure signal, not proof of legitimacy; the observed infrastructure is associated with OVH - OVH SAS in France.

## Closing Assessment

Ordinary browsing is proportionate to the assessed posture, while credential or payment activity should follow independent merchant-identity, authorization, return-policy, and payment-protection checks.

## Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about gueriniarmi.it at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
