- Domain age: more than 10 years (registration continuity).
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is an established UK online storefront presenting Warner Bros–associated Harry Potter merchandise, including clothing, gifts, collectibles, homeware, toys, and accessories, with direct-to-consumer purchasing, account, cart, promotions, and international delivery functionality.

Scam/Impersonation Risk

No contradictory identity, phishing, impersonation, malicious-reputation, or blacklist signals were observed. The storefront presents a coherent merchandise business model, while behavioral testing found no hidden forms, wallet activity, suspicious scripts, cloaking, or unexpected external submissions. Normal interaction, including account login and standard purchasing, is appropriate.

EVIDENCE

- The homepage identifies the service as the “Official Harry Potter Shop UK | Warner Bros Merchandise” and presents ordinary retail products with prices and cart functions.
- Page analysis recorded no red flags and no suspected brand impersonation.
- Behavioral testing recorded zero external submissions, zero hidden forms, zero wallet activity, and no cloaking.
- External reputation checks recorded zero malicious and zero suspicious detections.

Regulatory Verification Notes

The site’s identity presentation is consistent with an established consumer merchandise storefront, and the domain is long-established and registered through MarkMonitor Inc. The available storefront content does not present a formal regulatory license or registration number; for a retail business this is a transparency consideration rather than evidence of deception. A clean third-party broker match was also observed.

EVIDENCE

- Domain registration: 2002-08-26; age 23.95 years; registrar MarkMonitor Inc.; expiry 2028-08-26.
- The homepage presents clothing, gifts, collectibles, and related merchandise for direct consumer purchase.
- TLS certificate: issuer YE2, DV validation, valid to 2026-09-01.
- The broker-intelligence check returned no match.

What to Verify Next

For institutional procurement or unusually high-value orders, independently confirm the merchandise authorization and applicable consumer-commerce terms through official Warner Bros channels and retain normal payment and order documentation.

EVIDENCE

- The homepage explicitly associates the shop with Warner Bros merchandise.
- The storefront provides country selection, promotions, delivery information, cart functionality, and account access.
- The available page content does not display a formal licensing or regulatory registration number.

Summary Verdict

The website presents as a legitimate, established, high-trust ecommerce service with a coherent identity and no observed contradiction or malicious activity. Its overall posture supports normal browsing, account use, and standard transactions.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with observed traffic served through CDN edge infrastructure rather than an exposed origin. This provides a meaningful protective layer against direct origin exposure, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Normal use is appropriate; ordinary transaction hygiene and independent confirmation are proportionate for exceptional-value purchases.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about harrypottershop.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
