

Is headhuntermexico.com.mx legit? TrustSniffer's high-trust assessment: 100/100

headhuntermexico.com.mx

Verdict

100

OUT OF 100

HIGH TRUST

headhuntermexico.com.mx appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Corporate website for Head Hunter México / Virtual5 recruitment and HR services. Provides company contact details, privacy notice explaining collection of personal and sensitive candidate data, job listings, and service descriptions (assessment center, training, outplacement). Contains forms for uploading CVs and submitting assessment requests.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What headhuntermexico.com.mx served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Head Hunter México is a corporate recruitment and human-resources consultancy presented under the Virtual5 name, offering recruitment and selection, assessment-center services, training, outplacement, job listings, and candidate CV submission; its apparent business model is based on B2B recruitment and HR engagements.

Scam/Impersonation Risk

No contradictions were observed: the supplied evidence identifies no phishing, impersonation, blacklist, or malicious-content indicators. The homepage presents a coherent corporate recruitment purpose, with no login form, hidden form, wallet interaction, or cryptocurrency activity detected. Available technical and historical signals are consistent with an established website, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage is categorized as a corporate recruitment site and contains substantive descriptions of recruitment, assessment, training, outplacement, vacancies, and contact functions.
- The site's domain was registered on 2006-06-08 and is approximately 20.22 years old.
- The site's observed behavior showed 2 successful runs, 0 hidden forms, 0 password forms sent externally, and 0 wallet-provider or wallet-drainer detections.
- No malicious or suspicious findings were reported by the available external reputation checks; coverage was partial.

Regulatory Verification Notes

The privacy notice states that Virtual5 Reclutamiento y Selección is legally constituted under Mexican law and gives a San Andrés Cholula, Puebla address. It also describes the collection and use of sensitive candidate information, including employment history, references, identification-related information, and CV data, for recruitment, assessment, and reference-checking purposes. The supplied pages do not identify a sector-specific license or registration number; for an HR consultancy this is a transparency and applicability question rather than evidence of misconduct. The available evidence is therefore consistent with an established, apparently legitimate business site, but does not independently verify the operator behind the stated identity.

EVIDENCE

- The privacy page names "Virtual5 Reclutamiento y Selección," states that it is legally constituted under Mexican law, and provides a physical address.
- The privacy page describes purposes for processing candidate and sensitive personal data, including psychometric testing, recruitment follow-up, vacancy evaluation, and employment-reference verification.
- The domain registrar is AKKY ONLINE SOLUTIONS, S.A. DE C.V.; registration continuity records show creation on 2006-06-08 and expiration on 2027-06-07.
- The site is served from AS22458, NETSOURCE - CONVERGEONE HOLDINGS, INC., US; its TLS certificate is issued by YR2 at DV validation level and is valid to 2026-10-11T19:46:28+00:00.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm that the legal entity named in the privacy notice corresponds to the intended HR provider, using an authoritative Mexican corporate or business registry and an independently sourced contact route. Candidate-data submitters should review the privacy notice for consent, retention, sharing, and withdrawal provisions, while corporate customers should confirm the contracting entity, service scope, fees, and dispute terms in writing. Any applicable professional, data-protection, or contracting requirements should be checked against the relevant Mexican authority or procurement standard.

EVIDENCE

- The privacy page provides the entity name and physical address that should be matched through an independent registry or offline confirmation.
- The CV-upload and assessment-request functions create a need to confirm data-processing, retention, and authorized-recipient terms before submission.
- The services and vacancies pages provide the commercial context against which the contracting party, deliverables, and payment terms should be checked.

Summary Verdict

The overall posture is **high trust and low risk**, with strong evidence consistency between the site's corporate purpose, substantive business content, long registration history, valid transport encryption, and absence of identified contradiction signals. The website appears established and apparently legitimate, but operator identity is not independently verified.

Infrastructure Integrity

The site resolves directly to one observed origin address, 67.217.34.66, hosted in the United States by NETSOURCE - CONVERGEONE HOLDINGS, INC. on AS22458, with no CDN or WAF detected. This is a straightforward hosting posture rather than an identity proof; the valid TLS deployment supports transport integrity for connections to the site.

Closing Assessment

Normal browsing is proportionate to the assessment, while independent identity, service-term, and payment-protection checks should precede credential submission or financial engagement.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of headhuntermexico.com.mx.

- The request stayed on headhuntermexico.com.mx. It was not redirected to another domain. [CLEAR](#)
- Registration is published under AKKY ONLINE SOLUTIONS, S.A. DE C.V.. [CLEAR](#)

- DNS for this domain is served by networkclub.net, across 2 name servers. NOTED
- The registration is paid up to 2027-06-07. NOTED
- The earliest public archive of this site is from 2007-05-18. CLEAR
- It is hosted on NETSOURCE, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about headhuntermexico.com.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
