

Is headquartergeb.com safe? TrustSniffer's moderate-trust assessment: 70/100

headquartergeb.com

Verdict

70

OUT OF 100

MODERATE TRUST

headquartergeb.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Not Scam

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

An insights/blog page offering analysis and trends for the Philippine slot machine and cash gaming industry. Includes contact form and a long list of external casino/gambling domains, indicating affiliate or referral intent. No login prompts or wallet/seed requests found.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Headquartergeb.Com

What headquartergeb.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Headquartergeb.com presents an informational insights site focused on slot-machine and cash-gaming trends in the Philippines, promoting market analysis, industry opportunities, profitability strategies, and consultation through a contact form; its apparent business model is content publishing supported by referrals, advertising, or affiliate relationships with gambling websites.

Scam/Impersonation Risk

No contradictions were observed. The available content does not show brand impersonation, phishing behavior, login prompts, wallet or seed-phrase requests, hidden forms, or transaction requests. The site's extensive outbound gambling-link directory indicates commercial referral intent and warrants separation between the site's informational commentary and the services promoted through external destinations, but it is not, by itself, evidence of impersonation or a scam.

EVIDENCE

- The homepage identifies the service as “Insights on Slot Machines and Cash Gaming” and describes analysis of Philippine gaming trends and opportunities.
- The homepage contains one contact form and no login or sensitive-data form.
- Browser testing recorded no external XHR or POST activity, hidden forms, wallet connections, clipboard activity, or cloaking.
- Domain telemetry records WHOIS creation on 2024-09-18, age_years 1.92; the historical record spans 2017-04-24 to 2026-02-08 with 151 snapshots across 10 years.

Regulatory Verification Notes

The site should be treated as an apparently informational and affiliate-oriented publication rather than as evidence of a regulated gaming or investment operator. No license claim, licensing authority, or license number is disclosed in the supplied site content, leaving the regulatory status of any promoted gambling services unclear. The real-world operator identity is not independently verified, so the site's business and contact claims should remain qualified. The site also provides limited formal publishing metadata: no structured data or substantive meta description was detected. No separate broker match or adverse third-party reputational signal was identified.

EVIDENCE

- The homepage describes “expert analysis” and “financial success” opportunities but does not state a licensing authority or license number.
- The homepage presents a contact/consultation form and a large directory of external casino and gambling domains, consistent with referral or advertising monetization.
- The site is registered through NameSilo, LLC.
- Hosting telemetry identifies AS47583, AS-HOSTINGER - Hostinger International Limited, CY; its TLS certificate is issued by YE1 at DV validation level and is valid to 2026-10-11.

What to Verify Next

Before any high-value or sensitive engagement, the site's operating entity and the authorization status of any promoted gambling service should be confirmed through the relevant Philippine regulatory registry or another authoritative jurisdictional source. Promotional links should be assessed independently rather than treated as endorsements, and any consultation arrangement should be supported by a written scope, identifiable counterparty, clear terms, and payment protections. Official contact channels should also be confirmed through an independent route.

EVIDENCE

- The homepage's stated focus is Philippine slot-machine and cash-gaming industry analysis.
- The homepage contains a contact form but does not identify a verified regulated counterparty in the supplied content.
- The external-link directory contains numerous gambling-domain destinations outside the site's own domain.
- The site presents profitability and “financial success” language without accompanying licensing details.

Summary Verdict

The website has a **moderate-trust posture**: available evidence is consistent with a functioning informational site and shows no observed scam, phishing, or impersonation contradiction. Confidence is limited because the real-world operator is not independently verified and the commercial referral model increases the importance of validating counterparties before consequential engagement.

Infrastructure Integrity

The site resolves directly to hosting infrastructure operated by Hostinger International Limited under AS47583 in Ukraine, with no CDN detected and four likely origin IPs identified. This is a normal hosting configuration but provides less edge-layer isolation than a CDN/WAF deployment; infrastructure characteristics are therefore mitigating technical context only and do not establish legitimacy.

Closing Assessment

Ordinary informational browsing is proportionate, while sensitive submissions, financial commitments, or reliance on external promotions should follow independent identity, authorization, and payment-protection checks.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of headquartergeb.com.

- The request stayed on headquartergeb.com. It was not redirected to another domain. CLEAR
- Registration is published under NameSilo, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2026-09-18. NOTED
- The earliest public archive of this site is from 2017-04-24. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about headquartergeb.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
