

Is hecsamex.com.mx a scam? TrustSniffer's high-risk assessment: 0/100

hecsamex.com.mx

Verdict

0

OUT OF 100

CRITICAL RISK

hecsamex.com.mx shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be	Corporate website for HECSAMEX, a distributor and service partner for Atlas Copco tools and industrial torque/assembly systems. Provides product specs, services (installation, maintenance, training), sustainability and contact/location information.
------------------------------	--

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://hecsamex.com.mx/>

What hecsamex.com.mx served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents HECSAMEX as a Mexican B2B distributor and service provider for pneumatic, electrical, and electronic industrial tools used by automotive manufacturers and Tier 1 suppliers. Its corporate pages describe equipment sales, Atlas Copco-related solutions, installation, maintenance, repair, training, and technical support as the apparent business model.

Scam/Impersonation Risk

The site's visible content is consistent with a conventional industrial-services company: the homepage describes distribution, maintenance, intelligent tightening tools, and Industry 4.0 support, with no login form, payment workflow, wallet connection, or other sensitive interaction surface identified. However, this benign presentation is materially contradicted by external security detections: the domain is **blacklisted**, with multiple malicious classifications and detections from Fortinet, Kaspersky, and Sophos. The available evidence does not establish brand impersonation or a conflicting legal identity, but the confirmed blacklist signal is sufficient to create a severe risk for credentials, financial activity, or other sensitive engagement. Evidence:

- The corporate homepage describes HECSAMEX as an industrial-tools distributor and service provider and contains no detected login or sensitive form.
- External reputation telemetry recorded 12 malicious detections from 17 effective detections, with Fortinet, Kaspersky, and Sophos among the flagged vendors.
- Domain registration: 2020-11-18T00:00:00Z; age 5.76 years; registrar AKKY ONLINE SOLUTIONS, S.A. DE C.V.
- Archive observations span first seen 2021-12-06T04:39:43Z to last seen 2025-08-06T11:06:59Z, with 5 years tracked.

Regulatory Verification Notes

The Profile, Values, Location, Contact, and sustainability-related content gives the site a coherent commercial identity and describes an “Authorized Distributor” relationship involving Atlas Copco. That on-site claim remains unverified as a real-world affiliation, and the reviewed pages do not state a regulatory license or license number. This is a disclosure and verification matter rather than an independent finding of misconduct. No matching broker-reputation record was identified in the available third-party context. Evidence:

- The Profile page identifies HECSAMEX and describes distribution, installation, maintenance, repair, and training services for industrial equipment.
- The homepage and corporate profile refer to Atlas Copco products, intelligent tightening, traceability, and “zero defect” production strategies.
- The site’s transport encryption uses a DV certificate issued by YR1, valid through 2026-10-09T05:03:39+00:00.
- The domain is served through AS31898, ORACLE-BMC-31898 - Oracle Corporation, US.

What to Verify Next

Before any sensitive engagement, an independent party should confirm that HECSAMEX is currently authorized by Atlas Copco using a manufacturer-controlled directory or an independently obtained corporate contact, rather than relying solely on the website. The relevant Mexican corporate and tax registration details should also be checked against official records, and any required commercial or sector-specific authorization should be confirmed with the applicable regulator. Contact details and payment instructions should be validated through an offline or independently sourced channel before credentials, purchase orders, bank information, or funds are exchanged. Evidence:

- The Contact and Ubicación sections provide the site’s stated channels and location information for independent confirmation.
- The site presents a corporate identity and an Atlas Copco distributor claim but does not provide an independently verifiable authorization reference in the reviewed content.
- Behavioral testing completed 2 successful runs and identified 55 external XHR requests, including 52 non-whitelisted requests.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. The site’s professional industrial presentation is outweighed by corroborated external security detections and the resulting failure of trust validation. Apparent corporate legitimacy should therefore not be treated as sufficient evidence that the online endpoint is safe for operational, credential, or financial use.

Infrastructure Integrity

The domain resolves to Oracle Corporation infrastructure in the United States on AS31898, with one resolved IP and no detected CDN or WAF edge deployment. The hosting arrangement is a mitigating technical fact only; it does not offset the external reputation findings.

Closing Assessment

Sensitive engagement should remain on hold until the independent identity, affiliation, and security checks above produce satisfactory results; any required escalation should be handled through established procurement and security-review processes.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of hecsamex.com.mx.

- The request stayed on hecsamex.com.mx. It was not redirected to another domain. CLEAR
- Registration is published under AKKY ONLINE SOLUTIONS, S.A. DE C.V.. CLEAR
- DNS for this domain is served by hostgator.mx, across 2 name servers. NOTED
- The registration is paid up to 2026-11-18. NOTED
- The earliest public archive of this site is from 2021-12-06. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about hecsamex.com.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
