Full analysis

Overview

Heyhairsalons.co.za is a South African directory and map service for locating hairdressers, hair salons, and related beauty providers by city and area, with its apparent purpose being local discovery, listings, and referral traffic.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent informational directory, identifies thousands of salon listings across South African cities, contains no investment or payment solicitation, and shows no phishing, impersonation, or malicious-content indicators. Unrelated hotel links suggest limited content curation or SEO residue, but do not establish deceptive intent.

- Homepage identifies the service as “Hair salons & Hairdressers in South Africa” and describes location-based discovery.
- Homepage reports 5,243 hairdressers and lists coverage across Johannesburg, Cape Town, Pretoria, Durban, and other cities.
- External reputation checks recorded zero malicious or suspicious detections and no blacklist result.

Regulatory Verification Notes

The site’s stated model is a local business directory rather than a financial, investment, or other clearly regulated service. Its identity signals are consistent with an established operating website, including a long-established registration associated with Ted Valentin Holding AB and registration through Gandi. The reviewed content does not present a regulatory license claim requiring validation.

- Domain registered on 2015-05-26 and associated with Ted Valentin Holding AB through Gandi.
- Domain registration is valid through 2027-05-26 and is approximately 11.19 years old.
- Hosting is provided through AS13335, Cloudflare; the TLS certificate is issued by WE1 at DV validation level and is valid to 2026-09-08.
- The homepage categorizes the service as a directory/search platform with no direct payment or investment activity evident.

What to Verify Next

For ordinary use, listing details and appointment information should be confirmed directly with the relevant salon, particularly where information may have been submitted by businesses or users. Any commercial

arrangement should be completed through the provider’s independently confirmed contact or booking channel.

- Homepage provides salon counts and geographic listings as the primary service content.
- No sensitive form or payment workflow was observed on the reviewed homepage.
- The site includes a login option but no login form was presented in the captured page content.

Summary Verdict

The website presents as an established, legitimate, and trustworthy local-information service. Its identity, stated business model, technical posture, and clean external reputation converge on a low-risk assessment, and normal interaction—including account login and standard use—is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with observed traffic terminating on Cloudflare edge servers and no origin candidate identified. This provides meaningful exposure mitigation, although protective hosting alone is not proof of legitimacy.

Closing Assessment

The site is suitable for normal directory use, with routine confirmation of individual business details appropriate before appointments or commercial commitments.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about heyhairsalons.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
