Welcome to High

What highpointsmile.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

High Point Dentistry is a local dental-practice website serving patients in Menomonee Falls, Wisconsin. It presents a practitioner biography, dental services, patient forms, payment access, office details, and a contact form, indicating a conventional healthcare-service model based on treatment, consultation, and related patient payments.

Scam/Impersonation Risk

No contradictions were observed: the assessment found no phishing, impersonation, malicious-site, or blacklist indicators, and the pages do not exhibit the characteristics of a deceptive financial or credential-harvesting service. The homepage's local-business presentation is internally coherent, identifying High Point Dentistry, Dr. Miranda Peter, a physical office, telephone and fax numbers, operating hours, patient resources, and an Instagram presence. Two abuse reports were associated with a shared provider IP rather than specifically with this website; the attribution carries zero confidence and is expressly discounted because the reports apply to shared infrastructure. This is therefore a limited reputational signal, not evidence of site-specific abuse. Evidence:

- The homepage identifies High Point Dentistry, Dr. Miranda Peter, dental services, patient forms, payments, and a Menomonee Falls office.
- The contact page or homepage provides a physical address, telephone number, fax number, business hours, and a contact form.
- Technical reputation checks recorded zero malicious and zero suspicious findings where evaluated, with no phishing, impersonation, or blacklist hit.
- Two abuse reports concern a shared provider IP, with confidence score 0 and attribution marked as shared infrastructure.

Regulatory Verification Notes

The website presents a healthcare practice and payment function but does not state a professional license, registration number, or licensing authority in the supplied content. That is a verification and disclosure gap rather than evidence of deception. The available evidence is consistent with an established, apparently legitimate website, while the real-world operator connection remains likely rather than independently verified. Registration privacy is an administrative limitation: the domain was registered through GoDaddy.com, LLC, with the registrant record showing Registration Private and Domains By Proxy, LLC. Evidence:

- The domain registration record states creation date 2009-07-08 and age 17.13 years; registrar: GoDaddy.com, LLC.
- The available archival record spans 2011–2026, covering 16 years tracked; archival coverage is sparse.
- The site is served from AS209242, CLOUDFLARESPECTRUM - Cloudflare London, LLC, US.
- The transport certificate is issued by WE1, uses DV validation, and is valid to 2026-11-08.

What to Verify Next

Before credential or payment interaction, an independent check should confirm that the practice name, clinician details, physical address, and telephone number correspond to the intended dental provider through an offline or independently sourced channel. Any applicable Wisconsin professional licensing status should be checked directly with the relevant state licensing registry, and the payment page should be reviewed for the legal payee, transaction protections, privacy terms, and patient refund or cancellation arrangements. The official contact channels should also be confirmed independently before sensitive health or payment information is submitted. Evidence:

- The homepage supplies the identity and location details needed for an independent provider-identity check.
- The site includes a payment link and patient forms, creating a need to confirm payment-protection and information-handling terms before use.
- The supplied page analysis found one contact form and no password or hidden sensitive-data form.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate local healthcare website and supports a high-trust, low-risk posture for ordinary browsing and standard interaction. The classification is strong, but it should not be treated as independent proof of the real-world operator's identity.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with the observed edge address 198.202.211.1 on AS209242; no origin candidate was observed. This architecture is a mitigating security-control signal because it reduces direct exposure of the underlying host, but it is not proof of legitimacy.

Closing Assessment

Normal informational use is proportionate to the assessed posture; account or payment activity should follow the ordinary independent identity, licensing, terms, and payment-protection checks appropriate for a healthcare provider.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 2 reports on hosting IP 2620:cb:2000::1 (Webflow, Inc, Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of highpointsmile.com.

- The request stayed on highpointsmile.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2031-07-08. CLEAR
- The earliest public archive of this site is from 2011-02-08. CLEAR
- It is hosted on CLOUDFLARESPECTRUM, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about highpointsmile.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
