

Is homedocorbd.com a scam? TrustSniffer's high-risk assessment: 0/100

homedocorbd.com

Verdict

0

OUT OF 100

CRITICAL RISK

homedocorbd.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Landing page in Bengali promoting a paid health ebook (gynecology-focused). Includes product description, target audiences, price (280 BDT), testimonials, contact phone and email, and a strong money-back promise (refund of 300 BDT if not satisfied). No visible purchase form, institutional accreditation, or verifiable medical credentials beyond claims of doctor review.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

What homedoctorbd.com served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This Bengali-language landing page presents a direct-to-consumer health ebook focused on gynecology and related women's-health topics, with the apparent purpose of selling digital medical-information content through visitor contact and ordering channels.

Scam/Impersonation Risk

The site presents a **critical interaction risk** because independent threat-intelligence detections identify the domain as malicious and the domain is blacklisted by multiple sources. This is a direct contradiction to treating the site as a routine online merchant, notwithstanding the absence of an established conflicting legal identity or confirmed brand impersonation in the supplied evidence. The appropriate posture is to avoid sensitive

interaction, credential submission, payment, or reliance on the site until the threat finding is independently resolved.

EVIDENCE

- The domain's external reputation record contains 13 malicious detections, including a Tier-1 security-provider detection.
- The domain is recorded as blacklisted by two external sources, while Google Safe Browsing reports no malicious finding.
- WHOIS records show registration on 2026-01-28, with an age of 0.56 years.

Regulatory Verification Notes

The homepage sells a gynecology ebook for 280 BDT and claims that its content was reviewed by specialist and international doctors. It discusses normal and abnormal gynecological conditions, home remedies, pregnancy, contraception, and when to seek medical care, but the supplied page evidence shows no institutional accreditation or independently verifiable medical credentials. The page also promotes testimonials and a 300 BDT money-back promise, while providing contact details without a visible purchase form or independently validated merchant identity. These omissions are regulatory and disclosure matters rather than, by themselves, proof of fraud. No matching broker-reputation record was identified.

EVIDENCE

- The homepage is a product-sales landing page containing medical claims, testimonials, a 280 BDT price, and a 300 BDT refund promise.
- The homepage provides no visible institutional accreditation or verifiable medical credentials beyond claims of doctor review.
- The site is served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- The site uses a DV TLS certificate issued by WE1, valid to 2026-10-22T19:29:21+00:00.

What to Verify Next

Any prospective engagement should first confirm the publisher's legal identity and the credentials of the medical reviewers through an independent, offline route rather than relying solely on the landing page. The claimed refund arrangement and the identity of the payment recipient should be confirmed before any payment is attempted, and the medical content should not substitute for advice from a qualified healthcare professional.

EVIDENCE

- The homepage's medical-review claims require independent confirmation from the named or purported reviewing professionals.
- The homepage's refund promise requires confirmation of the applicable terms and the party responsible for honoring it.
- The absence of a visible purchase form means the eventual payment destination and transaction process should be inspected independently before proceeding.

Summary Verdict

The site’s overall posture is critical, with a sufficiently serious external threat signal to outweigh its ordinary ecommerce presentation and valid transport encryption. It should not be treated as a trusted destination for sensitive interaction, financial activity, or credential handling.

Infrastructure Integrity

Cloudflare CDN and WAF protection provide a mitigating layer against direct exposure of the hosting environment, but they do not establish the legitimacy of the site or offset the external reputation findings. All observed addresses were Cloudflare edge addresses, with no origin candidate identified in the supplied infrastructure analysis.

Closing Assessment

The proportionate course is passive viewing only while independent identity, medical-credential, payment, and threat-status checks are completed; credentials and payments should not be submitted during that process.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of homedoctorbdd.com.

- The request stayed on homedoctorbdd.com. It was not redirected to another domain. CLEAR
- Registration is published under HOSTINGER operations, UAB. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-28. NOTED
- The earliest public archive of this site is from 2021-12-06. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about homedoctorbdd.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
