Full analysis

Overview

Hotukdeals is an established UK deals and discounts community presenting user-submitted offers, discount codes, freebies, shopping discussions, merchant links, and travel deals through a free, advertising- and partnership-supported discovery platform.

Scam/Impersonation Risk

No contradictions were observed. The homepage's extensive consumer-deal content, recognizable marketplace/community format, affiliate disclosure, and absence of phishing, deceptive financial, brand-impersonation, or malicious-activity indicators are consistent with the stated business model. Normal account login and standard interaction are appropriate.

EVIDENCE

- The homepage presents deals, discount codes, freebies, travel offers, and community discussions without cryptocurrency or deceptive financial features.
- The homepage contains no sensitive login form, hidden form, wallet connection, clipboard manipulation, or suspicious script behavior.
- The domain was registered on 2004-08-11 and is approximately 21.99 years old.

Regulatory Verification Notes

The site provides company/legal links, privacy and cookie information, and affiliate monetization disclosure appropriate to a consumer shopping platform. The supplied page evidence does not identify a financial-services license or registration number; this is a limited disclosure note rather than evidence of illegitimacy, since the presented model is deal discovery rather than regulated financial intermediation. No adverse third-party broker association was identified.

EVIDENCE

- The homepage identifies affiliate monetization, privacy, cookie-consent, and company/legal information.
- Registered through Gandi SAS, with the organization identified as Atolls Germany GmbH.
- Hosted on AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- TLS is issued by YE2 using DV validation and is valid to 2026-10-14.

What to Verify Next

For any commercial partnership or material transaction, confirm the relevant company details through the site’s legal information and validate merchant destinations independently before purchase. Where a regulated service is ever presented, confirm the applicable authorization directly with the relevant official register.

EVIDENCE

- The homepage directs users toward external merchant offers and shopping destinations.
- The site provides company/legal links that can be used for entity-level confirmation.
- The platform’s stated model is supported by affiliate and partnership disclosures.

Summary Verdict

The website presents a legitimate, established, and trustworthy consumer-commerce community with a coherent business model and no observed scam or impersonation indicators. Its overall posture supports normal use, including account access and standard transactions.

Infrastructure Integrity

Cloudflare CDN/WAF protection places observed traffic behind four edge addresses, all associated with AS13335; no origin candidate was observed. This is a mitigating infrastructure control that reduces direct origin exposure but is not, by itself, proof of legitimacy.

Closing Assessment

Standard browsing, account login, and ordinary platform interaction are appropriate, with independent merchant and transaction checks applied as part of normal online purchasing practice.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about hotukdeals.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
