Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

HT Media's website is the corporate presence of an established Indian print and digital media company, presenting publishing brands, advertising and branded-content services, audience solutions, radio, events, case studies, and corporate information for commercial partners and stakeholders.

Scam/Impersonation Risk

No contradictions were observed across the supplied evidence. The homepage presents a coherent corporate media identity, established brands, business services, and contact information, with no phishing, malicious-content, hidden-form, wallet, or suspicious-behavior indicators. The site's external reputation checks were clean, and its published business model is consistent with a legitimate media and advertising enterprise.

- The homepage identifies HT Media and presents Hindustan Times, Hindustan, Mint, digital, radio, events, and related media services.
- The homepage contained no detected red flags, login form, sensitive form, hidden form, wallet connection, or suspicious script behavior.
- The homepage describes fact-checked publishing, advertising, branded content, audience insights, case studies, and corporate contact details.

Regulatory Verification Notes

The site provides corporate, investor, talent, CSR, and contact pathways and describes a media and advertising business rather than a financial-services operation. No financial licence or licence number is presented in the supplied site content; this is a limited disclosure point for regulatory due diligence, not evidence of deception or impersonation. The available third-party reputation context produced no broker match or confirmed warning.

- The domain was registered in 2005, is approximately 21.47 years old, and lists GoDaddy.com, LLC as registrar with HT Media Ltd as organization.
- The site's TLS certificate is OV-validated, issued by DigiCert Global G3 TLS ECC SHA384 2020 CA1 for HT Media Ltd., and valid through 2027-02-10.
- The site has a top-million global traffic footprint, with an observed rank of 113593.

What to Verify Next

For a procurement, partnership, or other material engagement, confirm the contracting entity and authorized contact details against the site's About, Investors, and Contact materials, and confirm any sector-specific requirements applicable to the proposed service.

- The About Us and Investors pathways provide the relevant corporate-information context.
- The Contact Us pathway supplies the site’s stated business contact route.
- The homepage describes the intended commercial relationship as advertising, branded content, audience solutions, publishing, events, and related media services.

Summary Verdict

HT Media presents as a legitimate, established, and trustworthy corporate website with strong identity coherence, mature business content, clean reputation signals, and no observed scam or impersonation indicators. Normal interaction, including account login where applicable and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Akamai CDN/WAF infrastructure, with observed edge hosting on AS20940, Akamai International B.V.; all observed addresses were CDN edge servers rather than exposed origin candidates. This provides a meaningful layer of infrastructure protection while remaining a mitigating control rather than proof of legitimacy.

Closing Assessment

The site is suitable for normal business engagement, with entity and contact confirmation appropriate for formal procurement or high-value commercial arrangements.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of htmedia.in.

- The request stayed on htmedia.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by akam.net, across 6 name servers. NOTED
- The registration is paid up to 2027-02-16. NOTED
- It is hosted on AKAMAI-ASN1, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about htmedia.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
